## **History Paper November 2014 Question Paper:**

*India's Wars* Arjun Subramaniam, 2017-09-15 India's armed forces play a key role in protecting the country and occupy a special place in the Indian people's hearts yet standard accounts of contemporary Indian history rarely have a military dimension. In *India's Wars*, serving Air Vice Marshal Arjun Subramaniam seeks to rectify that oversight by giving India's military exploits their rightful place in history. Subramaniam begins *India's Wars* with a frank call to reinvigorate the study of military history as part of Indian history more generally. Part II surveys the development of the India's army, navy, and air force from the early years of the modern era to 1971. In Parts III and IV, Subramaniam considers conflicts from 1947 to 1962 as well as conflicts with China in 1962 and Pakistan in 1965 and 1971. Part V concludes by assessing these conflicts through the lens of India's ancient strategist Kautilya, who is revered in India as much as Sun Tzu is in China. Not merely a wide-ranging historical narrative of India's military performance in battle, *India's Wars* also offers a strategic, operational, and human perspective on the wars fought by independent India's armed forces. Subramaniam highlights possible ways to improve the synergy between the three services and argues in favor of the declassification of historical material pertaining to national security. The author also examines the overall state of civil-military relations in India, leadership within the Indian armed forces, as well as training, capability building, and other vitally important issues of concern to citizens, the government, and the armed forces. This objective and critical analysis provides policy cues for the reinvigoration of the armed forces as a critical tool of statecraft and diplomacy. Readers will come away from *India's Wars* with a greater understanding of the international environment of war and conflict in modern India. Laced with veterans' intense experiences in combat operations and deeply researched and passionately written, it unfolds with surprising ease and offers a fresh perspective on independent India's history.

**Unfinished History** David Montgomery, 2017-06-01 David Montgomery's *Unfinished History* challenges the traditional story of Franz Schubert's B minor Symphony and searches for a more credible account of this great work. Written for all Schubert lovers, from lay readers to musicians and musicologists, the book reviews a strangely persistent mythology concerning the symphony, continuing with the first in-depth examination of its manuscript and related documents. Details of handwriting, notation, paper, watermarks, compositional procedures, and stylistic contexts suggest a new year and country of origin for the *Unfinished Symphony*, a possible explanation for the absence of a finale in the sketches, and an alternative account of the score's disappearance and prolonged sequestration. The author concludes with an essay on performing the work in the context of its own times. The story of the *Unfinished* has been based partly upon three conflicting letters written in old age by Schubert's former secretary long after the composer's death. A fourth document in this insupportable mythology is a photograph of a lost letter purportedly sent from Schubert to the Styrian Music Society in Graz, promising to send them a symphony. Many historians still believe the letter to be genuine despite the fact that its signature has been traced. David Montgomery's handwriting analysis finally identifies the real writer of this odd missive, clearing a

further path to new research      **Male Suicide and Masculinity in 19th-century Britain** Lyndsay Galpin, 2022-04-07 This book shows how interpretations of suicidal motives were guided by gendered expectations of behaviour and that these expectations were constructed to create meaning and understanding for family friends and witnesses Providing an insight into how people of this era understood suicidal behaviour and motives it challenges the assertion that suicide was seen as a distinctly feminine act and that men who took their own lives were feminized as a result Instead it shows that masculinity was understood in a more nuanced way than gender binaries allow and that a man's masculinity was measured against other men Focusing on four common narrative types the love suicide the unemployed suicide the suicide of the fraudster or speculator and the suicide of the dishonoured soldier it provides historical context to modern discussions about the crisis of masculinity and rising male suicide rates It reveals that narratives around male suicides are not so different today as they were then and that our modern model of masculinity can be traced back to the 19th century      *Head of State Immunity under the Malabo Protocol* Kobina Egyir Daniel, 2021-09-20 In *Head of State Immunity under the Malabo Protocol* Triumph of Impunity over Accountability Kobina Egyir Daniel engages the subject of Head of State Immunity in international law against the backdrop of the African Union AU's decision to create a Court with international criminal jurisdiction before which Heads of State or persons entitled to act in such capacity will have immunity during incumbency The AU asserts in justification not only that it is standing up for itself against neo colonialist imperialist forces which have perverted international criminal justice and target African States through the International Criminal Court ICC but also that it is preserving the very soul of international criminal justice as well as customary international law on immunities Beyond the analysis to determine whether the immunity that the AU's Malabo Protocol of 2014 confers represents a retrogression in international law norms that seek accountability for jus cogens crimes Daniel provides valuable insights into the status inspired dialectics and self serving hero villain polemics that fuel contestations of right between the AU and the ICC and the worldviews that respectively seek to overturn preserve the asymmetry of the international legal order Through a review of legal history case law from national and international tribunals state practice and academic expositions the book examines the evolution and practice of Head of State immunity as well as recent trends in the practice of the doctrine in light of the countervailing push to establish exceptions to immunity in order to ensure accountability under international human rights and international criminal law      *The SAGE Handbook of Asian Foreign Policy* Takashi Inoguchi, 2019-11-25 Comprising 60 3 percent of the world's 7 2 billion population Asia is an enigma to many in the West Hugely dynamic in its demographic economic technological and financial development its changes are as rapid as they are diverse The SAGE Handbook of Asian Foreign Policy provides the reader with a clear balanced and comprehensive overview on Asia's foreign policy and accompanying theoretical trends Placing the diverse and dynamic substance of Asia's international relations first and bringing together an authoritative assembly of contributors from across the world this is a reliable introduction to non Western intellectual traditions in Asia

Sino-Japanese Alienation Barry Buzan,Evelyn Goh,2020-01-09 Bitterly contested memories of war colonisation and empire among Japan China and Korea have increasingly threatened regional order and security over the past three decades In Sino Japanese relations identity territory and power pull together in a particularly lethal direction generating dangerous tensions in both geopolitical and memory rivalries Buzan and Goh explore a new approach to dealing with this history problem First they construct a more balanced and global view of China and Japan in modern world history Second building on this they sketch out the possibilities for a 21st century great power bargain between them Buzan puts Northeast Asia s history since 1840 into both a world historical and a systematic normative context exposing the parochial nature of the China Japan history debate in relation to what is a bigger shared story about their encounter with modernity and the West within which their

modern encounter with each other took place Arguing that regional order will ultimately depend substantially on the relationship between these two East Asian great powers Goh explores the conditions under which China and Japan have been able to reach strategic bargains in the course of their long historical relationship and uses this to sketch out the main modes of agreement that might underpin a new contemporary great power bargain between them in a variety of future scenarios for the region The frameworks adopted here consciously blend historical contextualisation enduring concerns with wealth power and interest and the complex relationship between Northeast Asian states evolving encounters with each other and with global international society
