History Pmemorandum 2014 Grade 11:

Encounters Old and New in World History Alan Karras, Laura J. Mitchell, 2017-06-30 This collection of essays asserts the specific value of world history research and teaching showing how the field contributes to the larger historical profession and offering concrete suggestions to develop more interaction between the academy and the public The twelve contributors each with their own academic areas of interest are experienced scholars and classroom teachers Uniting them together in this volume is their professional relationship with Jerry H Bentley 1949 2012 This shared connection served as a catalyst to showcase Bentley s enduring legacy a commitment to investigating large scale questions with detailed empirical evidence that explains the human condition documenting both patterns of similarity and difference in ways that account for regional and temporal variations The volume continues Bentley s meticulous attention to world historical methods focus on scale cross cultural encounter comparison periodization critical geography and interdisciplinarity Encounters Old and New in World History responds to provocations that Jerry Bentley tendered in his scholarship and through his professional activities Contributors interrogate the institutional settings disciplinary proclivities methodological choices and diverse source bases of world history research and teaching Several essays address the ways in which present day concerns influence research on local and global scales Other essays pay particular attention to the production and circulation of knowledge across regional temporal and class boundaries as well as between the academy and the wider public Claiming the centrality of globally informed and focused approaches to historical inquiry researchers continue the conversations that Bentley carried on through his own scholarship teaching editing of the Journal of World History participating in public forums and contributing to public discussions about the place of history in understanding today s global integration The stakes involved in asking questions about the shared history of humankind continue to increase in the current era of intensified globalization It is incumbent upon scholars with the skills to work across linguistic geographic temporal and disciplinary boundaries to show the ways that cross cultural encounters happened historically and to point out how such interactions play out in the institutions classrooms and public debates where historical interpretations are created and shared Crimea, Global Rivalry, and the Vengeance of History Hall Gardner, 2016-04-30 Gardner examines the causes and consequences of Russia s annexation of Crimea By analyzing alliance formations and the consequences of other annexations in world history the book urges an alternative US NATO European Japanese strategy toward both Russia and China in the effort to prevent a renewed arms race if not global war *Misogyny in American Culture* Letizia Guglielmo Ph.D., 2018-10-01 This set surveys American misogyny in all its cultural forms from popular music film and education to healthcare politics and business The work also assesses proposals to confront and reduce such expressions of hatred The essays contained in this two volume set explore misogyny within various areas of American culture to demonstrate its pervasiveness and identify common foundations of its many presentations Beyond a basic definition of misogyny which includes hatred of women and girls and the ways in which

this hatred and distrust influences action speech discrimination policy and culture in the United States this project also aims to expand and complicate definitions of misogyny in order to provide readers with a robust introduction to and understanding of the larger topic Given the current political and cultural climate and the more frequent and widespread use of the term misogyny by various media outlets and voters during the 2016 presidential election this book has the potential both to contribute to ongoing conversations on misogyny and among its intended audience of advanced high school beginning college students and the general public to inform a shift currently unfolding in public conversation on the topic

Whose America? Jonathan Zimmerman, 2022-08-26 In this expanded edition of his 2002 book Zimmerman surveys how battles over public education have become conflicts at the heart of American national identity Critical Race Theory The 1619 Project Mask mandates As the headlines remind us American public education is still wracked by culture wars But these conflicts have shifted sharply over the past two decades marking larger changes in the ways that Americans imagine themselves In his 2002 book *Whose America* Zimmerman predicted that religious differences would continue to dominate the culture wars Twenty years after that seminal work Zimmerman has reconsidered arguments over what American history is what it means and how it is taught have exploded with special force in recent years In this substantially expanded new edition Zimmerman meditates on the history of the culture wars in the classroom and on what our inability to find common ground might mean for our future

Sport and the Home Front Matthew Taylor, 2020-05-31 Sport and the Home Front contributes in significant and original ways to our understanding of the social and cultural history of the Second World War It explores the complex and contested treatment of sport in government policy media representations and the everyday lives of wartime

citizens Acknowledged as a core component of British culture sport was also frequently criticised marginalised and downplayed existing in a constant state of tension between notions of normality and exceptionality routine and disruption the everyday and the extraordinary The author argues that sport played an important yet hitherto neglected role in maintaining the morale of the British people and providing a reassuring sense of familiarity at a time of mass anxiety and threat Through the conflict sport became increasingly regarded as characteristic of Britishness a symbol of the ordinary everyday lives in defence of which the war was being fought Utilised to support the welfare of war workers the entertainment of service personnel at home and abroad and the character formation of schoolchildren and young citizens sport permeated wartime culture contributing to new ways in which the British imagined the past present and future Using a wide range of personal and public records from diary writing and club minute books to government archives this book breaks new ground in both the history of the British home front and the history of sport

The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools

Tiger Check Steven A. Fino, 2017-11 The fielding of automated flight controls and weapons systems in fighter aircraft from 1950 to 1980 challenged the significance ascribed to several of the pilots historical skillsets such as superb hand eye coordination required for aggressive stick and rudder maneuvering and perfect eyesight and crack marksmanship required for long range visual detection and destruction of the enemy Highly automated systems would proponents argued simplify the pilot's tasks while increasing his lethality in the air thereby opening fighter aviation to broader segments of the population However these new systems often required new

unique skills which the pilots struggled to identify and develop Moreover the challenges that accompanied these technologies were not restricted to individual fighter cockpits but rather extended across the pilots tactical formations altering the social norms that had governed the fighter pilot profession since its establishment In the end the skills that made a fighter pilot great in 1980 bore little resemblance to those of even thirty years prior despite the precepts embedded within the myth of the fighter pilot As such this history illuminates the rich interaction between human and machine that often accompanies automation in the workplace It is broadly applicable to other enterprises confronting increased automation from remotely piloted aviation to Google cars It should appeal to those interested in the history of technology and automation as well as the general population of military aviation enthusiasts Provided by publisher
