A Path by Light Alfred J.

Harradine, 2018-08-23 A Path by Light Part 2 By Alfred J Harradine In prayer Alfred J Harradine felt the Lord calling him to write the novel A Path by Light yet he had no idea what it would be about until he started writing After a while he kept thinking about The Lord's Prayer As he wrote and prayed about the first novel in the A Path by Light series it became very clear to him that Jesus in teaching us how to pray tried to let us know we do not have to die before we can live and experience the Heavenly Kingdom He calls us to live that Kingdom now on Earth as it will be in Heaven If He is teaching us to pray about doing it surely He will also teach us how to live that life When Harradine finished he had written five short novels in the A Path by Light series His original intent was to have them published separately but his wife Nancy and friends suggested that he combine parts I-V into one novel After much prayer that is what he did While waiting for the first A Path by Light to be published he started writing and completed this second book in this series combining parts VI-X

The Blockchain and the New Architecture of Trust Kevin Werbach,2023-08-15 How the blockchain a system built on foundations of mutual mistrust can become trustworthy The blockchain entered the world on January 3 2009 introducing an innovative new trust architecture an environment in which users trust a system for example a shared ledger of information without necessarily trusting any of its components The cryptocurrency Bitcoin is the most famous implementation of the blockchain but hundreds of other companies have been founded and billions of dollars invested in similar applications since Bitcoin s launch Some see the blockchain as offering more opportunities for criminal behavior than benefits to society In this book Kevin Werbach shows how a technology resting on foundations of mutual mistrust can become trustworthy The blockchain built on open software and decentralized foundations that allow anyone to participate seems like a threat to any form of regulation In fact Werbach argues law and the blockchain need each other Blockchain systems that ignore law and governance are likely to fail or to become outlaw technologies irrelevant to the mainstream economy That Werbach cautions would be a tragic waste of potential If however we recognize the blockchain as a kind of legal technology that shapes behavior in new ways it can be harnessed to create tremendous business and social value
