Remaking a World completes a triptych of volumes on social suffering violence and recovery Social Suffering the first volume deals with sources and major forms of social adversity with an emphasis on political violence The second Violence and Subjectivity contains graphic accounts of how collective experience of violence can alter individual subjectivity This third volume explores the ways communities cope with endure work through break apart under transcend traumatic and other more insidious forms of violence addressing the effects of violence at the level of local worlds interpersonal relations and individual lives The authors highlight the complex relationship between recognition of suffering in the public sphere and experienced suffering in people s everyday lives Rich in local detail the book s comparative ethnographies bring out both the recalcitrance of tragedy and the meaning of healing in attempts to remake the world Remaking a World completes a triptych of volumes on social suffering violence and recovery Social Suffering the first volume deals with sources and major forms of social adversity with an emphasis on political violence The second *Buddha in Sri Lanka* Swarna Wickremeratne, 2012-02-01 This book provides both an erudite and intimate look at how Buddhism is lived in Sri Lanka While India is known as the birthplace of Buddhism Sri Lanka is its other home Buddhism extends back over twenty five hundred years on the island and remains at the center of its spiritual traditions and culture Throughout the book author Swarna Wickremeratne incorporates a personal view sharing stories of herself her family friends and acquaintances as they lived Buddhism both during her Sri Lankan girlhood and during more recent times This personal view makes the traditions come alive as Wickremeratne details Buddhist beliefs customs rituals and ceremonies and folklore She also provides a fascinating discussion of the Sangha the institutional monkhood in Sri Lanka including its history codes of conduct and evolution and resilience over time Wickremeratne explores the recent attempts by many monks to reinvent themselves in a society characterized by secularization globalization and a tide of aggressive Christian evangelization **Communicating Christ in Asian Cities** Paul H. De Neui, 2009-06-01 Communicating Christ in Asian Cities Urban Issues in Buddhist Contexts is the sixth volume in a series produced from the annual SEANET Missiological Forum held in Chiang Mai Thailand It developed from a keen awareness that certain urban concerns for evangelistic mission must be addressed in a unique way when viewed within the myriad and complex cultures found within Asian Buddhism All authors included here write from many years of experience as Evangelical mission theologians scholars pastors and practitioners working within Asian urban Buddhist contexts This book is divided into three sections with the first focused on foundational issues of ministry within the framework of Asian Buddhist cities The second section includes four chapters addressing several contextual issues specific to peoples within Asian Buddhist cities The final section includes three chapters on the topic of strategic means of evangelization found useful in specific Asian urban Buddhist contexts *Healing Cultures* Nirekha De Silva, 2023-10-12 This

book showcases the diverse range of healing cultures and explores how government action can have an impact through determining promoting protecting or destroying traditional cultural aspects of healing and wellbeing based on a case study of Sri Lanka It argues that diverse forms of healing practices matter not only because of their value in the health and wellbeing of the community but also because they strongly contribute towards the intangible cultural heritage of the country Identifying the diverse forms of healing practices existing in the country and the role of the existing regulatory mechanisms determines the potential for protecting the diversity of healing Despite Sri Lanka being historically rich in traditional knowledge and expression very little if anything has been written on regulating traditional practices related to health and wellbeing in the country a lacuna which this volume fills

*In Defense of Dharma* Tessa J. Bartholomeusz, 2005-07-26 This is the first book to examine war and violence in Sri Lanka through the lens of cross cultural studies on just war tradition and theory In a study that is textual historical and anthropological it is argued that the ongoing Sinhala Tamil conflict is in actual practice often justified by a resort to religious stories that allow for war when Buddhism is in peril Though Buddhism is commonly assumed to be a religion that never allows for war this study suggests otherwise thereby bringing Buddhism into the ethical dialogue on religion and war Without a realistic consideration of just war thinking in contemporary Sri Lanka it will remain impossible to understand the power of religion there to create both peace and war
