

Attach the pull chain pendant to the fan pull chain. The fan pull chain controls power to the fan. The pull chain has four settings in sequence: High, Medium, Low, and Off. Pull the chain slowly to change settings. Release slowly to prevent the chain from recoiling into the blades.

Ceiling fans work in two directions: downdraft (counterclockwise rotation) and updraft (clockwise rotation). To change the direction of air flow, turn the fan off and let it come to a complete stop. Slide the reversing switch to the opposite position. Restart the fan. Move the directional lever down for down draft. Move the directional lever up for up draft.

Updraft (clockwise rotation) creates a more indirect airflow. Updraft airflow is great for moving warm air downward.

Downdraft (counterclockwise rotation) creates a direct breeze and maximum cooling effect.
