DESKTOP MICROPHONE

SM-20

Thank you for purchasing the **SM-20 DESKTOP MICROPHONE**.

The **SM-20** is a unidirectional, electret microphone designed for base station operation with an Icom transceiver.

The **SM-20** cannot be used with a non-Icom transceiver since the power is supplied from the connected transceiver.

FRONT VIEW

① FREQUENCY UP/DOWN SWITCHES [UP] / [DOWN]

Change the frequency up or down. Some transceivers do not have this function.

② PTT SWITCH

Push to transmit, then release to receive.

③ PTT LOCK SWITCH [LOCK]

Push IN to transmit continuously, then push OUT to receive.

BOTTOM VIEW

④ MIC GAIN CONTROL [MIC GAIN]

Varies microphone output level. Use this control when the connected transceiver has no mic gain controls.

NOTE: Rotating the control too far clockwise may result in overmodulation and transmit signal distortion.

⑤ LOW CUT SWITCH [LOW CUT]

Cuts out low-frequency components of input voice signals.

• MICROPHONE PIN CONNECTION

The pins are shown from the cable, or rear, side of the plug.

Subject Guide to Books in Print ,1975 *Connecting Museums* Mark O'Neill, Glenn Hooper, 2019-10-16 *Connecting Museums* explores the boundaries of museums and how external relationships are affected by internal commitments structures and traditions Focusing on museums relationship with health inclusion and community the

book provides a detailed assessment of the alliances between museums and other stakeholders in recent years. With contributions from practitioners and established and early career academics, this volume explores the ideas and practices through which museums are seeking to move beyond what might be called one-off contributions to society to reach places where the museum is dynamic and facilitates self-generation and renewal where it can become not just a provider of a cultural service but an active participant in the rehabilitation of social trust and democratic participation. The contributors to this volume provide conceptual critiques and clarification of a number of key ideas which form the basis of the ethics of museum legitimacy as well as a number of reports from the front line about the experience of trying to renew museums as more valuable and more relevant institutions. Providing internal and external perspectives, *Connecting Museums* presents a mix of applied and theoretical understandings of the changing roles of museums today. As such, the book should be of interest to academics, researchers and students working in the broad fields of museum and heritage studies, material culture and arts and museum management. *Kilobaud: Microcomputing*, 1981. *Manual of Curatorship* John M. A. Thompson, 2015-07-17. Based on original contributions by specialists, this manual covers both the theory and the practice required in the management of museums. It is intended for all museum and art gallery profession staff and includes sections on new technology, marketing, volunteers and museum libraries. *Amateur Radio*, 1999. *Disaster Management in Archives, Libraries and Museums* Graham Matthews, Yvonne Smith, 2016-12-05. This important book assesses the current state of disaster management in archives, libraries and museums in the UK and around the world and provides recommendations for addressing current and future threats. Following an introductory outline of the topic and terminology, the authors provide a short history of the development of disaster management in the cultural heritage sector. They illustrate a basic framework for effective disaster management by reviewing disaster control plan practice from around the world. Through examining and identifying the key issues affecting disaster management in archives, libraries and museums, the authors discuss a priority structure for future implementation. This book will be key reading for scholars and students of archive studies, library and information and museum management. It will also be extremely useful for professionals and policy makers involved in disaster management planning at a local and national level. **Chemical Principles of Textile Conservation** Agnes Timar-Balazsy, Dinah Eastop, 2012-09-10. *Chemical Principles of Textile Conservation* provides must-have knowledge for conservators who do not always have a scientific background. This vital book brings together from many sources the material science necessary to understand the properties, deterioration and investigation of textile artefacts. It also aids understanding of the chemical processes during various treatments such as cleaning, humidification, drying, disinfestation, disinfection and the use of adhesives and consolidants in conservation of historical textiles. Textile conservators will now have ready access to the necessary knowledge to understand the chemistry of the objects they are asked to treat and to make informed decisions about how to preserve textiles. The combination of a chemist and a conservator provides the perfect authorial team. It ensures

a unique dual function of the text which provides textile conservators with vital chemical knowledge and gives scientists an understanding of textile conservation necessary to direct their research The many practical examples and case studies illustrate the utility of the relatively large chemical introduction and the essential chemical information which is included The case studies many illustrated in colour range from the treatment of the Ghandis clothes high altitude flying suits and a Mary Quant raincoat to the Hungarian Coronation Mantle **CQ**,2000 **Conservation Skills** Chris Caple,2012-11-12 Conservation Skills provides an overview of the issues facing conservators of historic and artistic works It not only describes the nature of conservation but also provides an ethical framework to which the conservation of objects can be related Drawing on case studies of well known objects such as the body of Lindow Man and the Statue of Liberty it addresses the following issues perception judgement and learning reasons for preserving the past the nature and history of conservation conservation ethics recording investigating cleaning objects stabilisation and restoration preventive conservation decision making and responsibilities **Conservation of Plastics** Yvonne Shashoua,2012-06-25 Plastic objects are included more than ever in museums and galleries collections these days but these items can start to deteriorate when they are just a few years old In this book Yvonne Shashoua provides the essential knowledge needed to keep plastic pieces in the best possible condition so that they can continue to be enjoyed for many years The historical development of plastics as well as the technology their physical and chemical properties identification degradation and conservation are all clearly and concisely covered within this single volume making it an invaluable reference for the increasing number of conservators and curators that are encountering plastics in their day to day work **The Reflective Museum Practitioner** Laura Martin,Lynn Uyen Tran,Doris Ash,2019-06-06 The Reflective Museum Practitioner explores a range of expansive and creative ways in which the concept of reflective practice has been applied in the informal STEM science technology engineering and mathematics learning environments of museums and zoos It seeks to demonstrate how such a process can inspire lifelong learning in practitioners to the benefit of practitioners and visitors alike Presenting six projects that employed reflective practice the contributors examine how each project has encouraged and sustained reflection and the outcomes thereof The projects cover a wide range of different practitioners including administrators scientists educators and other front line and back room staff who work at different junctures of their organizations Collectively they raise key questions about changing communities of practice in Informal Science Learning institutions The projects and concept of reflective practice are fully defined and contextualized by the editors who offer in depth analysis along with a cultural historical activity theory framework for understanding how changes in museum practice unfold in an institutional context The Reflective Museum Practitioner offers museum professionals insight into reflective practice as practiced by other institutions in their sector providing practical examples that can be adapted to their needs It will also be of interest to scholars and students focusing on science museums or professional practice development in museums **Stock Guide** ,1983-07 Monthly statistical summary of 5100 stocks
