Benchmarking Working Europe 2012 European Trade Union Institute, 2012 Since 2001 the ETUC and ETUI have produced Benchmarking Working Europe for the European Social Summit to draw attention to the state of working Europe This publication aims to provide a genuine benchmarking exercise applied to the world of labour and social affairs grounded in effective labour and social rights It establishes what progress or lack of it has taken place in selected areas of significance for social Europe and of importance to the trade unions This year's edition of Benchmarking Working Europe focuses on what we see as one of the root causes of the great recession namely the issue of inequalities going far beyond income inequality Growing inequalities lead to growing feelings of injustice and lack of social cohesion both within and across countries and at the same time to a loss of human potential in its broadest sense In this respect this publication raises serious concerns as to the current direction of social and labour rights in the European Union Four main messages which we would like to highlight are 1 Social inequality in its many forms is worsening in nearly all EU countries and not only on account of the succession of financial economic and debt crises 2 Between the EU member states the trend for the poorer economies to catch up with the richer ones leading to greater convergence has been halted and even reversed 3 The European discourse that new post crisis growth will solve the temporary phenomenon of rising inequalities is fundamentally flawed The link between growth and equality has snapped and the tide is no longer rising for all 4 The political remedies must in future focus on a redistribution and deconcentration of wealth

Advancing Variable Star Astronomy Thomas R. Williams, Michael Saladyga, 2011-05-26 Founded in 1911 the AAVSO boasts over 1200 members and observers and is the world's largest non profit organization dedicated to variable star observation This timely book marks the AAVSO's centennial year presenting an authoritative and accurate history of this important association Writing in an engaging and accessible style the authors move chronologically through five eras of the AAVSO discussing the evolution of its structure and purpose Throughout the text the main focus is on the thousands of individuals whose contributions have made the AAVSO's progress possible Describing a century of interaction between amateur and professional astronomers the authors celebrate the collaborative relationships that have

existed over the years As the definitive history of the first hundred years of the AAVSO this text has broad appeal and will be of interest to amateur and professional astronomers as well as historians and sociologists of science in general Tropical Dry Forests in the Americas Arturo Sanchez-Azofeifa, Jennifer S. Powers, Geraldo W. Fernandes, Mauricio Quesada, 2013-08-29 Under threat from natural and human disturbance tropical dry forests are the most endangered ecosystem in the tropics yet they rarely receive the scientific or conservation attention they deserve In a comprehensive overview Tropical Dry Forests in the Americas Ecology Conservation and Management examines new approaches for data sampling and analysis using remote sensing technology discusses new ecological and econometric methods and critically evaluates the socio economic pressures that these forest are facing at the continental and national levels The book includes studies from Mexico Costa Rica Colombia Venezuela and Brazil that provide in depth knowledge about the function status and conservation efforts of these endangered forests It presents key elements of synthesis from standardized work conducted across all sites This unique contribution provides new light in terms of these forests compared to each other not only from an ecological perspective but also in terms of the pressures that they are facing and their respective responses Written by experts from a diversity of fields this reference brings together the many facets of function use heritage and future potential of these forests It presents an important and exciting synthesis of many years of work across countries disciplines and cultures By standardizing approaches for data sampling and analysis the book gives readers comparison information that cannot be found anywhere else given the high level of disparity that exists in the current literature India's Water Futures K.
