**Electric Vehicle Systems Architecture and Standardization Needs** Beate Müller, Gereon Meyer, 2015-02-25 This edited volume presents research results of the PPP European Green Vehicle Initiative EGVI focusing on Electric Vehicle Systems Architecture and Standardization Needs The objectives of energy efficiency and zero emissions in road transportation imply a paradigm shift in the concept of the automobile regarding design materials and propulsion technology A redesign of the electric and electronic architecture provides in many aspects additional potential for reaching these goals At the same time standardization within a broad range of features components and systems is a key enabling factor for a successful market entry of the electric vehicle EV It would lower production cost increase interoperability and compatibilities and sustain market penetration Hence novel architectures and testing concepts and standardization approaches for the EV have been the

topic of an expert workshop of the European Green Vehicles Initiative PPP This book contains the contributions of current European research projects on EV architecture and an expert view on the status of EV standardization The target audience primarily comprises researchers and experts in the field

**An Approach to Sustainable Smart Airport Design** Gnana Swathika Odiyur Vathanam, Karthikeyan Kalyanasundaram, 2025-09-09 This book details a cutting edge smart airport infrastructure with a focus on sustainable net zero energy solutions and advanced technologies The current global trend is construction so that all infrastructure is self sustaining and implements the latest technologies to achieve net zero energy and net zero water The demand for smart airport technology is estimated to be primarily driven by the rising investments being made in building new greenfield airports and expanding existing airports globally to accommodate the anticipated rebound in passenger traffic The Global Smart Airport Market Research Size report includes segments on airport operations landside airside and terminal side geography North America Europe Asia Pacific Latin America Middle East and Africa and technology security systems communication systems air and ground traffic control passenger cargo and baggage ground handling For each of the aforementioned market segments the study provides market size and projections in the billions USD Technical topics discussed in the book include Evolution of Lighting Technology on Runways Building Management Systems Baggage Handling Systems Elevators and Escalators Electrical Design Aspects Source of Electrical Power Critical Buildings

**The European Arc Flash Guide** Mike Frain CEng FIET MCMI, 2021-09-20 This book is essential reading for anyone responsible for designing or putting workers to task on or near large power electrical systems This is especially relevant where local health and safety law uses a risk based approach to electrical safety such as in Europe It is based upon a bedrock of risk management methodology using the 4Ps of Predict Prevent Process and Protect to ensure that arc flash hazards are systematically identified analysed and prevented from causing harm Each of the 4Ps are described in detail starting with a quantitative prediction of harm from the arc flash hazard and then a separate chapter on prevention based upon practical measures avoid or minimise harm set against a hierarchy of risk control measures The chapter on process policy and procedures gives advice on a methodical approach to creating rules and ensuring competence Finally the chapter on protection describes as a last resort how personal protective equipment can be selected used and maintained This book is packed with the fruits of the author's vast experience and there is a chapter dedicated to myths and mysteries as well as separate chapters for electrical utilities duty holders service providers contractors legislation and data collection

*International Oilfield Surface Facilities: Safety Analysis for Electrical Design* Kun Ma, Yewei Mei, Xiaolong Meng, Zhaoxia Liu, Jingjun Huang, Zhiwei Liu, 2021-07-26 This book mainly introduces an essential safety concept and procedure for electrical engineering in oil and gas field It begins by providing broad guidelines for performing electrical safety and operability review ELSOR giving reader a general overview of the field It subsequently verifies electrical distribution overhead line and hazardous area classification safety analysis together with comparison of different international codes and

standards with China national codes to interpret different safety concepts from different countries for electrical engineering in oil and gas field This unique and complete co design safety analysis will greatly benefit international electrical engineers and operators of oil and gas fields This book is with vivid flow chart accurate table expressing the analysis logic method and exact illustrations of code and standard of different country and area This book stresses the electrical design safety for surface facilities of oil and gas oil field and will benefit to engineer who works with oil and gas field surface facilities engineering
