Come Home Alive Mari D. Martin,2021-04-12 For twenty years God has been leading guiding and preparing author Mari D Martin to walk alongside her husband Chris through a throat cancer diagnosis the treatment of that cancer the recovery from the side effects of the treatments and then through rehabilitation to return to what will be his new normal In *Come Home Alive* Mari shares the oftentimes tender story of their six part plan to come home alive She narrates how the couple used their twenty four years as Kolbe Certified consultants to practice what they taught consulted and coached others regarding self awareness strengths identification communication needs role alignment and the environment each person needs to thrive For Chris to thrive again he needed to heal and for him to heal he needed to be in an environment that allowed him to thrive *Come Home Alive* tells how Mari s role as caregiver was to stay true to herself while also being the hands and feet to

recognize minimize and complete the tasks and requirements Chris naturally resisted Their plan rooted in faith and hope started with daily time together in prayer and belief in the healing power of God It ended with a practice of thankfulness and expecting a miracle What they did together in the middle is one you can do too through greater awareness of each other's strengths how to work together and be a team with the knowledge and wisdom to come home alive **The Canadian**

Journal of Cardiology, 2008 **Who Killed the Queen?** Holly Dressel, 2008-04-11 The Queen Elizabeth Hospital of Montreal an exemplary Canadian community hospital that had been the site of many national and international medical firsts was suddenly closed in the mid 1990s It was not alone **Telecare Technologies and the Transformation of**

Healthcare N. Oudshoorn, 2011-10-27 Winner of the British Sociological Association Foundation for the Sociology of Health and Illness Book Prize 2012 This book traces the changes in healthcare implicated in telecare technologies information and communication technologies that enable care at a distance What happens when healthcare moves from physical to virtual encounters between healthcare professionals and patients What are the consequences for patients when they are expected to do things that used to be done by healthcare professionals What actually happens when homes become electronically wired to healthcare organizations These are urgent questions that are however largely absent in dominant discourses on telecare Drawing on insights from science technology and human geography this work opens up novel accounts of the adoption and use of new technologies in healthcare Nelly Oudshoorn shows how telecare technologies participate in redefining the responsibilities and identities of patients and healthcare professionals introducing a new category of healthcare workers and changing the kinds of care and spaces where healthcare is situated This book intervenes critically into discourses that celebrate the independence of place and time by showing how places and physical contacts still matter in care at a distance

National Health Insurance United States. Congress. House. Committee on Ways and Means. Subcommittee on Health, 1976 **New York Magazine**, 1990-06-25 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **God Bless the NHS** Roger Taylor, 2013-03-15 The National Health Service described by Nigel Lawson as Britain's only national religion has never been more popular So why is the government so desperate to reform it Last year the Office of National Statistics reported higher public satisfaction with the NHS than at any time since its foundation In a 2012 survey of developed countries the UK showed the highest public support of its health system Politicians can hardly be surprised then when their plans to reforms are met with public dismay and professional fury This year has seen one of the most bruising political battles ever fought over the future of the NHS The twenty two month fight to push the NHS and Social Care Act through parliament prompted the most widespread political campaign by doctors since Aneurin Bevan

established the NHS in 1948 It cost the coalition government dearly and shredded the reputation of the Secretary of State for Health So why did they do it God Bless the NHS looks at the ideology behind the current reforms and the reasons why the government decided to take on the nation s most treasured institution Roger Taylor looks equivocally at those who support and oppose the new system and at the patchy history of attempts to reform the NHS and the likelihood of the success this time round Finally it addresses the political failure at the heart of the problem and the inevitable conflict when politics and medicine mix

Biblical Biology Dr. Melvin James Woodard III,2025-06-03 How can one view the world biologically but also biblically The walls people build around their lives protect them but also limit them People build many intellectual emotional and spiritual walls around themselves those they love and their community Often these walls safeguard them and help them understand their life and purpose Yet sometimes these walls impede people from fully experiencing life as God wants them to Which self built walls are helping these people Which walls are holding them back In his second book Biblical Biology Dr Woodard invites individuals to explore big ideas around biology and faith to see whether any of these ideas hit up against their walls If they do that s okay Believers are encouraged to see whether there might be something on the other side that opens up a new way to think feel or connect with God
