Investments AGE sets the standard for graduate/MBA investments textbooks. It blends practical and theoretical coverage, while maintaining an appropriate rigor and a clear writing style. Its unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. The text places greater emphasis on asset allocation and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts.

This Asia Global Edition puts the spotlight on financial practices, systems and news pertinent to the Asian financial landscape. Students will find the latest reviews and analyses of global financial developments, with an Asian focus, in our Words from the Street features as well as integrated into the main text. With this text, they will have a ringside perspective of both Asian and global markets and be able to form a clear stand on emerging trends. Post-2008, students using our **Investments AGE** text will be at the cusp of a bright future for Asia. The stage has been set with Asian investors' growing affluence and financial muscle, Asian sovereign wealth funds (and the flow of wealth from many regions into the region) coupled with the bedrock of Asia's world leading financial centers, like Hong Kong, Singapore, Tokyo, Seoul and Shanghai. Other economies like Taiwan, Malaysia, Indonesia, Vietnam, Philippines, and Thailand are also gathering pace.

Investments AGE is the right guide, and in fact, the only guide you will need, to all of the above and more.

The **ASIA GLOBAL EDITION** has been adopted to include relevant content from Asia and other parts of the world.
