Private International Law and Arbitral Jurisdiction Faidon Varesis, 2022-12-23 International commercial arbitration and litigation are often seen as competing fora fields of law or markets This intersection is at its highest at the forefront of any proceedings at the jurisdictional stage The analysis of jurisdictional issues at the forefront of an arbitration has been confined in a descriptive analysis of the law and jurisprudence dealing with jurisdictional intersections almost in a mechanistic manner These are not however issues which can be treated as mere mechanical rules They are issues pertaining to core notions of authority sovereignty their origins and their allocation At the same time the pragmatic and practical domination of party autonomy is a fact which cannot be disregarded when one considers the normative and theoretical foundations of any model of dealing with these issues This book moves beyond an analysis of arbitration and jurisdiction clauses to reconcile theory and practice and provides an underlying theoretical model to explain and regulate jurisdictional intersections at the early stages of an arbitration from a private international law perspective It

Intersectionality and Women's Access to Justice in Africa J. Jarpa Dawuni,2022-10-17 Intersectionality and Women s Access to Justice edited by J Jarpa Dawuni propounds layered intersectionality as a paradigm for examining how gendered factors affect women s access to justice whether as judges or litigants Through intersectional and decolonial frameworks the contributors analyze the lived experiences of women and their access to justice by situating the courtroom as both a spatial and a temporal arena for seeking justice as litigants and for seeking access to the bench as judges This book examines patterns of mutually reinforcing discriminatory practices that women share based on common gender identities and depending on which identities are at play at a given point in time in both traditional and statutory courts The book provides recommendations for various justice sector providers

The Conflict of Laws Adrian Briggs,2019-10-24 This invaluable introduction to the study of the conflict of laws provides a survey and analysis of the rules of private international law as they apply in England Written to take account of the various possible outcomes of the Brexit process it goes as far as is possible to make sense of the effect it will have on English private international law The volume covers general principles jurisdiction and the effect of foreign judgments the law applicable to contractual and non contractual obligations the private international law of property of adults the increasingly complex law of children is described in bare outline and of corporations It does so in a manner which explains and illuminates the principles which underpin the subject in a clear and coherent fashion as the wealth of literature case law and legislation can often obscure the architecture of the subject and unnecessarily complicate its study This new edition

organizes the existing material in light of European legislation on private international law reflecting the way in which an accurate representation of the topic requires it to be interpreted as European law with a common law periphery instead of common law with European legislative influences As at the time of writing and possibly for some time to come the consequences of Brexit are a mystery but the attempt is made to describe the various possible shapes which the subject will assume in the future The book adopts a pragmatic approach and avoids the more abstract theory as the theory of the conflict of laws is actually to be found in and by applying the legislation and jurisprudence to the cases and issues which arise in private international litigation and in giving legal advice
