Juan Rulfo Autobiografía Armada:

Juan Rulfo Juan Rulfo, Reina Roffé, 1992 *A Companion to Juan Rulfo* Steven Boldy, 2016 A comprehensive study of the Mexican writer considered one of the finest novelists and short story writers in 20th century Latin America Juan Rulfo Pol Popovic Karic, Fidel Chávez Pérez, 2007 Mexican Literature in Theory Ignacio M. Sánchez Prado, 2018-01-25 Mexican Literature in Theory is the first book in any language to engage post independence Mexican literature from the perspective of current debates in literary and cultural theory It brings together scholars whose work is defined both by their innovations in the study of Mexican literature and by the theoretical sophistication of their scholarship Mexican Literature in Theory provides the reader with two contributions First it is one of the most complete accounts of Mexican literature available covering both canonical texts as well as the most important works in contemporary production Second each one of the essays is in itself an important contribution to the elucidation of specific texts Scholars and students in fields such as Latin American studies comparative literature and literary theory will find in this book compelling readings of literature from a theoretical perspective methodological suggestions as to how to use current theory in the study of literature and important debates and revisions of major theoretical works through the lens of Mexican literary works *The Fiction of Juan Rulfo* Amit Thakkar, 2012 This is the first extended English language study to focus exclusively on the fiction of Juan Rulfo in over twenty years analyzing a selection of short stories from Rulfo's collection and also two of the main characters of his masterpiece Pedro Páramo This is the first extended English language study to focus exclusively on the fiction of Juan Rulfo in over twenty years It contains innovative analyses of a selection of short stories from Rulfo's collection *El llano en llamas* 1953 It also examines in great depth two of the main characters of Pedro Páramo 1955 Rulfo's masterpiece and only novel The book shows how Rulfo's works can be read as exercises in irony directed against the rhetoric of post Revolutionary Mexican governments It also demonstrates the relevance of certain legacies of colony in Rulfo's use of irony Successive Mexican governments promoted a vision of post Revolutionary society founded on specific notions of ethnicity family nation education religion and rural politics The author combines examination of the speeches images and newspaper articles which disseminated this vision with incisive literary analyses of Rulfo's work These analyses are informed both by his original theory of irony based on internal and external referents and by existing postcolonial theories particularly those of Homi K Bhabha Amit Thakkar is a Lecturer in Hispanic Studies at Lancaster University Interface between Literature and Science Victoria Carpenter, 2015-05-13 The boundaries of science and literature are permeable they are continuously crossed and illuminated by a variety of narrative forms and their interpretations Changes in our perception of the world are informed in equal measure by scientific and humanistic disciplines This volume treats both literary and scientific texts as products of the human mind therefore abiding by all the rules it creates scientific and humanistic alike The volume does not propose to replace all literary or discourse analysis with a cross disciplinary science based approach but rather uses this theoretical

stance when more conventional means fail to explain or even explore the intricacies of a text. It argues that scientific discourse can also be analysed through the prism of literary theories since all texts are governed in varying measure by the unity of contexts that characterize their nature, the process of their creation and their place in the cognitive realm of humanity. This approach will allow the nature and limitations of scientific research to be questioned while opening up more venues to explore scientific creativity that crosses the subject boundaries of science and humanities. Latin American literature offers many examples of the interconnection between literary and scientific discourse. Notwithstanding the often explored relationship between Jorge Luis Borges's literary themes and contemporary scientific discoveries, a more general question should be asked: is the influence of scientific thought a privilege of the select few or is it indeed an all-pervading experience in Latin American literary narrative from late modernism to present day? This book explores the texts that overtly incorporate scientific content or are structured in such a way that immediately reminds the reader of a scientific phenomenon; it will also examine the texts that are presented in such a way that a conventional literary analysis does not help penetrate the many narrative layers that the text comprises. The volume offers cross-disciplinary readings of such authors as Jorge Luis Borges, Gabriel García Márquez, Ernesto Sábato and Gustavo Sainz, to name but a few.

Jewish Writers of Latin America Darrell B. Lockhart, 2013-08-21 Jewish writing has only recently begun to be recognized as a major cultural phenomenon in Latin American literature. Nevertheless, the majority of students and even Latin American literary specialists remain uninformed about this significant body of writing. This Dictionary is the first comprehensive bibliographical and critical source book on Latin American Jewish literature. It represents the research efforts of 50 scholars from the United States, Latin America and Israel who are dedicated to the advancement of Latin American Jewish studies. An introduction by the editor is followed by entries on 118 authors that provide both biographical information and a critical summary of works. Argentina, Brazil and Mexico home to the largest Jewish communities in Latin America are the countries with the greatest representation, but there are essays on writers from Venezuela, Chile, Uruguay, Peru, Colombia, Costa Rica and Cuba.

The Routledge Handbook to the Culture and Media of the Americas charts the pervasive asymmetrical flows of cultural products and capital and their importance in the development of the Americas. The volume offers a comprehensive understanding of how inter-American communication is constituted, framed and structured and covers the artistic and political dimensions that have shaped literature, art and popular culture in the region. Forty-six chapters cover a range of inter-American key concepts and dynamics, divided into two parts. Literature and Music deals with inter-American entanglements of artistic expressions in

the Western Hemisphere including music dance literary genres and developments Media and Visual Cultures explores the inter American dimension of media production in the hemisphere including cinema and television photography and art journalism radio digital culture and issues such as freedom of expression and intellectual property This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology political science and cultural postcolonial gender literary globalization and media studies Juan Rulfo José Alberto Rubí Barquero,2012-01-25 El caso de Rulfo es el del escritor que tiene mucho que decir no tanto en extensión como en profundidad y que por condicionamientos de su misma biografía se ve obligado a expresarse a través de personajes sumamente rústicos gente que aparte de ignorante casi no habla Por lo que no le queda más que infiltrarse si se quiere subrepticamente en el mundo interior de sus personajes y dotarlos de su propia sensibilidad artística para que puedan apreciar la realidad que los rodea y expresarse sobre esa realidad en consonancia con la visión del mundo que Rulfo elabora a lo largo de su obra literaria

Juan Rulfo Fernando Barrientos del Monte,2020-10-08 Parafraseando al historiador romano Cayo Salustio un hombre universal es aquel que alcanza la gloria no con las fuerzas corporales sino con las facultades del espíritu En las artes como en las ciencias un clásico es un intérprete auténtico y nico de su tiempo su obra es siempre actual en cualquier época incluso cada generación siente la necesidad de releerla y reinterpretarla releída En literatura un clásico es además un modelo de narrativa de escritura y de pensamiento No hay duda que Juan Rulfo es un hombre universal y su obra literaria es un clásico Rulfo no fue un escritor prolífico si por ello se entiende aquel literato que publica una o más obras en una o ensayos entrevistas cuentos etcétera Fue más bien un artesano de las letras No fue heredero de una familia intelectual apenas tuvo la oportunidad de zambullirse en una pequeña pero afable biblioteca Cuando publicó por primera vez lo hizo en revistas de tiraje limitado y casi fuera del alcance de la crítica literaria de la época Empero sus primeros cuentos vendrán con el tiempo a trastornar el devenir de la literatura en México y dar a conocer a un escritor al mundo entero **Los caminos de la**
