June 2014 Business Studies Memo

Adalberto Perulli, Tiziano Treu

June 2014 Business Studies Memo:

Professional Journal of the United States Army, 2015 *Military Review*, 2016 Through Times of Trouble Anna Matveeva, 2017-12-20 This book tells the story of insurgency in Ukraine's Donbas region from the perspective of the rebels who sought and continue to seek either independence from Ukraine or unification with Russia. As such it provides a unique insight into their thinking and motivations which need to be understood if the conflict is to be resolved. Those making and remaking the conflict are placed in the centre of the story which uses the words of the combatants themselves. It shows how volunteer fighters driven by a wide and diffuse set of motivations emerged from Ukraine. Russia and different parts of the world stood at the rebellion's heart. The book focuses on the participants' own voices and personalities drawing extensively on first hand research and interviews. Rather than rendering Ukraine a chess piece on the geopolitical board the rebellion shows that ordinary people rather than elites can act as a decisive force. Donbas says something about why large numbers of people make the decision to take part in a collective violent action when material rewards are low or non-existent and mortal risks high. It stands as an important text on the study of modern insurgencies revealing how violent conflicts happen via issues of politicized identity and involvement of non-state actors. This book places this conflict into the context of other conflicts worldwide and demonstrates how ideas and narratives are constructed to provide meaning to a struggle. The insurgency has produced a conflict sub-culture rich with symbolism narrative and communications made possible by the digital age and a social media savvy population. These beliefs and ideas have had the power to pull people from different parts of the world. This book follows the stages of assembling different conflict ingredients together and the rebellion's zigzagging fortunes after it became apparent that Moscow was not going to repeat the Crimea scenario in Donbas. It analyses the logic of armed struggle and the tactics deployed by warring parties. It also sheds light on the developments in Moscow discusses the phenomenon of the Russian Spring movement and concludes with the prospects for a peaceful solution.

Monopolized David Dayen,2020-06-09 From the airlines we fly to the food we eat how a tiny group of corporations have come to dominate every aspect of our lives by one of our most intrepid and accomplished journalists If you re looking for a book that will get your heart pumping and your blood boiling and that will remind you why we re in these fights add this one to your list Senator Elizabeth Warren on David Dayen s Chain of Title Over the last forty years our choices have narrowed our opportunities have shrunk and our lives have become governed by a handful of very large and very powerful corporations Today practically everything we buy everywhere we shop and every service we secure comes from a heavily concentrated market This is a world where four major banks control most of our money four airlines shuttle most of us around the country and four major cell phone providers connect most of our communications If you are sick you can go to one of three main pharmacies to fill your prescription and if you end up in a hospital almost every accessory to heal you comes from one of a handful of large medical suppliers Dayen the editor of the American Prospect and author of the acclaimed Chain of Title provides a riveting account of what it means to live in this new age of monopoly and how we might resist this corporate hegemony Through vignettes and vivid case studies Dayen shows how these monopolies

have transformed us inverted us and truly changed our lives at the same time providing readers with the raw material to make monopoly a consequential issue in American life and revive a long dormant antitrust movement *Cooperatives in New Orleans* Anne Gessler, 2020-06-04 Cooperatives have been central to the development of New Orleans Anne Gessler asserts that local cooperatives have reshaped its built environment by changing where people interact and with whom helping them collapse social hierarchies and envision new political systems Gessler tracks many neighborhood cooperatives spanning from the 1890s to the present whose alliances with union consumer and social justice activists animated successive generations of regional networks and stimulated urban growth in New Orleans Studying alternative forms of social organization within the city's multiple integrated spaces women people of color and laborers blended neighborhood based African Caribbean and European communal activism with international cooperative principles to democratize exploitative systems of consumption production and exchange From utopian socialist workers unions and Rochdale grocery stores to black liberationist theater collectives and community gardens these cooperative entities integrated marginalized residents into democratic governance while equally distributing profits among members Besides economic development neighborhood cooperatives participated in heady debates over urban land use applying egalitarian cooperative principles to modernize New Orleans's crumbling infrastructure monopolistic food distribution systems and spotty welfare programs As Gessler indicates cooperative activists deployed street level subsistence tactics to mobilize continual waves of ordinary people seizing control over mainstream economic and political institutions

The New Era in U.S. National Security Jack A. Jarmon, 2019-10-24 The purpose of *The New Era in U.S. National Security Challenges of the Information Age* is to make its readers aware of how the tensions between opposing forces from above and below influence world events and shape U.S. national security institutions The debt trap now being experienced by the developing world has unleashed global migration on a mass scale In a world where market forces are politically unaccountable crime will prosper and its linkage to organizing social structures is organic The nexus between corrupt politicians transnational business and cross border crime pulls tighter Meanwhile the structures of global governance are immature Differences of agreement over international norms and controls regarding the use of the Internet and the laws pertaining to the deployment of cyber weapons are illusive if not insurmountable The chasm between the rich and poor is widening and deepening Hostilities continue mount In this book Jack A. Jarmon offers a survey of the altering landscape of warfare and competition Using recent events and documented experiences as examples it reveals truths about the threat from criminals terrorists hostile governments and internal vulnerabilities The nation's exposure invites attack with every hour Rather than an abstract threat these unseen and unreported assaults land blows to our information networks infrastructure quality of life and democratic system

New Conservatives in Russia and East Central Europe Katharina Bluhm, Mihai Varga, 2018-08-14 This book explores the emergence and in Poland Hungary and Russia the coming to power of politicians and political parties rejecting the consensus around market reforms

democratization and rule of law that has characterized moves toward an open society from the 1990s. It discusses how over the last decade these political actors together with various think tanks, intellectual circles and religious actors have increasingly presented themselves as conservatives and outlines how these actors are developing a new local brand of conservatism as a full fledged ideology that counters the perceived liberal overemphasis on individual rights and freedom and differs from the ideology of the established present day conservative parties of Western Europe. Overall the book argues that the renaissance of conservatism in these countries represents variations on a new illiberal conservatism that aims to re-establish a strong state sovereignty defining and pursuing a national path of development. **Politics and Pan-Africanism**

Dawn Nagar, 2019-12-12 Offering an examination of the diplomatic and economic regional power structures in Africa and their relationships with each other Dawn Nagar discusses the potential and future of pan Africanism. The three primary regional economic communities RECs that are recognised by the African Union as the key building blocks of a united Africa are examined: these are the Common Market for Eastern and Southern Africa COMESA, the East African Community EAC and the Southern African Development Community SADC. These RECs include Africa's major economies Egypt, South Africa and Kenya but are also home to Africa's most conflict prone and volatile states: the Democratic Republic of the Congo, DRC, Burundi, South Sudan, Somalia and Lesotho. Providing a detailed overview of the current relationship between these power blocs, this book provides insight into the current state of diplomatic and economic relations within Africa and shows how far there is to go for a future of Pan Africanism. **Putin's People** Catherine Belton, 2020-06-23. A New York Times and Sunday Times bestseller. A New York Times Book Review Editors' Choice. Named a best book of the year by The Economist, Financial Times, New Statesman, The Telegraph. Putin's People will surely now become the definitive account of the rise of Putin and Putinism. Anne Applebaum, The Atlantic. This riveting, immaculately researched book is arguably the best single volume written about Putin, the people around him and perhaps even about contemporary Russia itself in the past three decades. Peter Frankopan, Financial Times. Interference in American elections. The sponsorship of extremist politics in Europe. War in Ukraine. In recent years Vladimir Putin's Russia has waged a concerted campaign to expand its influence and undermine Western institutions. But how and why did all this come about and who has orchestrated it? In Putin's People the investigative journalist and former Moscow correspondent Catherine Belton reveals the untold story of how Vladimir Putin and the small group of KGB men surrounding him rose to power and looted their country. Delving deep into the workings of Putin's Kremlin, Belton accesses key inside players to reveal how Putin replaced the freewheeling tycoons of the Yeltsin era with a new generation of loyal oligarchs who in turn subverted Russia's economy and legal system and extended the Kremlin's reach into the United States and Europe. The result is a chilling and revelatory exposé of the KGB's revanche: a story that begins in the murk of the Soviet collapse when networks of operatives were able to siphon billions of dollars out of state enterprises and move their spoils into the West. Putin and his allies subsequently completed the agenda: reasserting Russian power while

taking control of the economy for themselves suppressing independent voices and launching covert influence operations abroad Ranging from Moscow and London to Switzerland and Brooklyn s Brighton Beach and assembling a colorful cast of characters to match Putin s People is the definitive account of how hopes for the new Russia went astray with stark consequences for its inhabitants and increasingly the world *Terrorism, Inc.* Colin P. Clarke,2015-06-01 This in depth historical analysis of terrorism investigates the major funding streams of terrorists insurgents guerrillas warlords militias and criminal organizations throughout the world as well as the efforts of the international community to thwart their efforts Terrorist financing is an ongoing game of creating concealing and surreptitiously utilizing funds This intriguing book considers every facet of guerrilla funding from how activities are financed to what insurgents do with the revenue they generate to the range of countermeasures in place for deterring their moneymaking activities Case studies prompt an analysis of past government responses and inform recommendations for countering irregular warfare worldwide Author Colin P Clarke presents the business side of terrorism taking a look at the cash producing ventures he labels gray activities such as diaspora support charities fraudulent businesses front companies and money laundering as well as dark activities including kidnapping for ransom robbery smuggling trafficking and extortion He considers the transnational efforts to stop terrorist activities from wiretaps and electronic surveillance to financial sanctions and the freezing of funds and accounts and points to the emergence of interagency task forces for detaining and destroying the operations of major criminal organizations across the globe **Government** Donald J. Savoie,2022-05-22 Citizens have lost trust in their institutions of public governance In trying to fix the problem presidents and prime ministers have misdiagnosed the patient failing to recognize that government bureaucracies are inseparable from political institutions As a result career officials have become adroit at managing the blame game but much less so at embracing change Donald Savoie looks to the United States Great Britain France and Canada to assess two of the most important challenges confronting governments throughout the Western world the concentration of political power and the changing role of government bureaucracy The four countries have distinct institutions shaped by distinct histories but what they have in common is a professional non partisan civil service When presidents and prime ministers decide to expand their personal authority national institutions must adjust while bureaucracies grow to fill the gap paradoxically further constricting government efficacy The side effects are universal political power is increasingly centralized Parliament Congress and the National Assembly have been weakened Cabinet has lost standing political parties have been debased and civil services have been knocked off their moorings Reduced responsibility and increased transparency make civil servants slow to take risks and politicians quick to point fingers Government astutely diagnoses the problem of declining trust in government presidents and prime ministers have failed to see that efficacy in government is tied to well performing institutions **Vladimir Putin and Russia's Imperial Revival** David E. McNabb,2016-02-12 Discerning the early stages of the rebirth of a new Russian empire from the ashes of the Soviet

Union Vladimir Putin and Russia's Imperial Revival argues that Russia's recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War. At the least, Russia's actions represent the potential for renewal. This book explains these developments in a historical context. The book begins by describing Russia's initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression. It identifies today's Russia as a nation determined to re-establish itself as a political and military force. As a prominent figure in the development and continuation of its current foreign policy, Vladimir Putin plays a central role in the topics covered. Previous literature often treats Putin as an individual phenomenon, examining his connections to corruption or the secret police, but here David E. McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies. He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia. These tactics include the use of energy as a weapon, cyber terrorism, and military support for ethnic Russian separatists in other sovereign nations, most recently exemplified by Russia's annexation of Crimea from Ukraine via armed invasion. In an attempt to demystify Russia's re-emergence as an international political force, Vladimir Putin and Russia's Imperial Revival grounds its analyses in history. It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation. It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events.

Enterprise and Social Rights Adalberto Perulli, Tiziano Treu, 2017-06-15 Globalization has led to growing labour fragmentation and widening of gaps in social protection. Although the enterprise is increasingly expected to be socially responsible, in actuality extreme worker inequalities and social dumping have become ubiquitous worldwide. This volume is the first to focus attention on the theory of the firm as it reveals itself in today's world from a multidisciplinary perspective. It underscores the necessity to rebuild a new scientifically controlled paradigm that acknowledges and regulates the dimension of power in the functioning of the organization. In their contributed essays, nineteen renowned scholars in labour law and industrial relations rethink the firm: its conception, its value, and its regulation, analysing such aspects as the following: labour management relations issues that arise when companies go global but workers remain local; the firm as a social construction; the continuing necessity for collective bargaining; concealment of the employment relationship under the guise of self-employment; concealment of the real employer behind figureheads and shell companies; social welfare effects of outsourcing; the company's interaction with the network of suppliers and with local education processes; determining who actually carries responsibility towards workers; overcoming companies' drive to enter the global market in response to national regulation; realizing the notion of duty of care; mechanisms of participation of workers in the management of the enterprise; and the persistent limitations that women face in the workplace even when worker participation is advocated. With attention to innovative developments in Germany, Italy, Japan, and other countries, analyses include case studies of specific companies as well as case law, in particular the European

Court of Justice's jurisprudence in matters of collective dismissals seconded workers and public contracts In their head on tackling of the fragmentation and blurring of social responsibility in enterprise organization these important essays propose a view of the enterprise as a factor in a new constitutionalisation of labour that shifts employment protection from single legal entities to the network's economic activity thus realigning the legal boundaries of the enterprise with its economic reality As a compelling investigation of how a satisfactory implementation of labour standards in the fragmented enterprise can be guaranteed this book will be studied by entrepreneurs managers consultants corporate lawyers judges human rights experts and trade unionists and will be welcomed by academics and researchers in industrial relations and labour law
