June 2015 Grade 12 Tourism Exam Paper:

The Intersection of Star Culture in America and International Medical Tourism Kathy Merlock Jackson, Lisa Lyon Payne, Kathy Shepherd Stolley, 2015-12-24 Celebrity culture health care and travel attract attention in America's media saturated society. These worlds curiously intersect in the study of medical tourism. Although the US touts some of the finest and best known medical facilities in the world, many jet-setting A-list celebrities who can well afford the finest of health care seek treatment far away from home, popularizing international sites, physicians and procedures. These travelers whose every move is chronicled by the media both reflect and influence health care concerns in America. An analysis of these high profile cases of celebrities with both life threatening and non life threatening conditions sheds light on the link between medical tourism and celebrity, showing how health care and entertainment intersect and the American public responds. *The Intersection of Star Culture in America and International Medical Tourism: Celebrity Treatment* argues that celebrity cases and media content drive awareness of medical tourism among Americans at a time when the medical system is under intense scrutiny. By popularizing international sites for treatment, procedures not available in the US and different approaches to patient care, media narratives present options for health care, triggering dialogue on one of America's most important human welfare issues.

It demonstrates that the role of the state, politics, institutional arrangements and tradition have a considerable impact on perceptions of these notions. The volume contributes to current debates on tradition and modernity, the study of heritage tourism, the negotiated power between stakeholders in tourism planning and policy making and the study of China's society. The approach and findings of the book are of value to those interested in the continuities and changes in Chinese society and to graduate students and researchers in tourism, cultural studies and China studies.

Political Ecology of Tourism Mary Mostafanezhad, Roger Norum, Eric J. Shelton, Anna Thompson-Carr, 2016-01-08 Why has political ecology been assigned so little attention in tourism studies despite its broad and critical interrogation of environment and politics? As the first full length treatment of a political ecology of tourism, the collection addresses this lacuna and calls for the further establishment of this emerging interdisciplinary subfield. Drawing on

recent trends in geography anthropology and environmental and tourism studies

Political Ecology of Tourism Communities Power and the Environment employs a political ecology approach to the analysis of tourism through three interrelated themes Communities and Power Conservation and Control and Development and Conflict While geographically broad in scope with chapters that span Central and South America to Africa and South Southeast and East Asia to Europe and Greenland the collection illustrates how tourism related environmental challenges are shared across prodigious geographical distances while also attending to the nuanced ways they materialize in local contexts and therefore demand the historically situated place based and multi scalar approach of political ecology This collection advances our understanding of the role of political economic and environmental concerns in tourism practice It offers readers a political ecology framework from which to address tourism related issues and themes such as development identity politics environmental subjectivities environmental degradation land and resources conflict and indigenous ecologies Finally the collection is bookended by a pair of essays from two of the most distinguished scholars working in the subfield Rosaleen Duffy foreword and James Igoe afterword This collection will be valuable reading for scholars and practitioners alike who share a critical interest in the intersection of tourism politics and the environment

Miller, 2016-09-30 Sustainable Ecotourism in Central America Comparative Advantage in a Globalized World examines the factors necessary for Nicaragua Panama and Belize to implement an economic development model based on the growth of ecotourism and foreign direct investment In order to determine what factors are necessary to implement this model this book analyzes the state of ecotourism development in Costa Rica and the lessons that the Costa Rican case can provide for other Central American states It also assesses the effects of globalization and the increasing implementation of free market policies on the development of ecotourism The book ultimately argues that globalization and neoliberalism have made it more likely that states will be able to adopt a development model based on ecotourism and foreign direct investment due to the manner in which neoliberalism and globalization help to create ever increasing economic interconnectedness and openness While globalization has served to shrink the world and make it easier for people to travel the economic openness of neoliberalism has facilitated global flows of both tourists and international capital into every corner of the world Understanding the way globalization and neoliberalism interact with ecotourism development and foreign direct investment is the key to formulating policy recommendations for states in Central America to jumpstart their economic development
