Handeland, 2014-01-28 Zero and Other Fictions Fan Huang, 2011-10-11 Huang Fan burst onto Taiwan's literary scene in

the 1980s publishing pointed urban portraits and political satires that captured the reading public's attention. After decades of innovative work, he is now one of Asia's most celebrated authors crucial to understanding the development of Taiwanese literature over the past fifty years. The first collection of Huang Fan's work to appear in English, this anthology includes *Zero*, a prize-winning dystopian novella echoing George Orwell's chilling 1984. Set in a postapocalyptic world, *Zero* features Xi De, a young man raised in an elite community who risks everything to challenge his society's charismatic leader and technocratic rule. Huang Fan's novella poignantly illustrates the quandary of an idealistic man trapped among conflicting claims to truth, unsure whether to think of himself as heroic or foolish in his ultimate choice of resistance and sacrifice. This anthology also features three critically acclaimed short stories. *Lai Suo*, which established Huang Fan's reputation as a groundbreaking author, *The Intelligent Man*, and *How to Measure the Width of a Ditch*. In *Lai Suo*, a naive individual becomes the pawn of powerful men intent on political advancement. In *How to Measure the Width of a Ditch*, an unreliable narrator spins an absurdist metafictional tale of his childhood in Taipei, and in *The Intelligent Man*, Huang Fan weaves an allegorical satire about political reunification set against a backdrop of Taiwanese migration to the United States with a trenchant look at expanding business interests in mainland China and Southeast Asia. All together, these remarkable works portray the tensions and aspirations of modern Taiwan.

understanding What stimulates a writer to write or to write a particular piece What do they intend to achieve when they do it And is there a process we can study and perhaps even understand The authors in this book who are both practitioners and researchers explore these three areas in unique and thought provoking ways They bring to the discussion both expertise in relation to what we already know and a sense of forward thinking in discussing how we can find out more This is a book for creative writing researchers and students who are seeking new knowledge about how creative writing is done what informs and encourages those doing it and what results from that knowledge and encouragement It is also potentially a book for creative writing practitioners who wonder how the things that interest them have them writing certain things and the ways they go about approaching undertaking and completing these projects The chapters in this book were originally published in *New Writing The International Journal for the Practice and Theory of Creative Writing*
