Chambliss, Linda Valli, 2011-07-16 Engaging students in worthwhile learning requires more than a knowledge of underlying principles of good teaching It demands considerable practice as well as images of what good teaching in particular situations and for particular purposes might look like This volume provides these images These cases were written from authentic unrehearsed lessons taught by upper elementary classroom teachers to diverse groups of real students in intact classrooms Each lesson contains elements of sound instructional practice from which both preservice and in service teachers can benefit Cases are not meant to be ideal but rather to evoke ways of seeing and thinking about good classroom instruction for all learners Accompanied by analytic commentaries from experts representing a particular perspective such as special education and ESOL these unrehearsed cases are written with the understanding that teaching is complex and multi dimensional The cases are drawn from a four year study of 4th and 5th grade mathematics instruction of culturally diverse classrooms with relatively high rates of students from low income families Coretta Scott King Award Books Claire Gatrell Stephens, 2000-05-15 Here s a fresh opportunity to learn more about these fine titles and integrate them into the curriculum The first half of the book presents annotated bibliographies of all author and illustrator winners and honor books The entire second half of the book is devoted to activities including some reproducibles based on select titles During the past 30 years the titles recognized by the Coretta Scott King Award have consistently presented excellent writing storytelling history and values Stephens s book is designed to help educators learn more about these fine titles and integrate them into the curriculum After giving background about the award and its history the author presents annotated bibliographies of all author and illustrator award winners and honor books The second half of the book is devoted to providing activities based on specific titles Helpful tips and reproducibles make this a classroom friendly resource
