and Astronomy Perhaps every generation of astronomers believes that their telescopes are the best that have ever been They
are surely all correct The great leap of our time is that computer designed and machined parts have led to more accurately
made components that give the astronomer ever better views The manual skills of the craftsman mirror grinder have been
transformed into the new age skills of the programmer and the machine maker The new products did not end the work of
craftsman telescope makers though Many highly skilled amateur professional opticians continued to produce good quality
mirrors that are still seen today Amateur priced telescopes are now capable of highly accurate tracking and computer control
that were once only the province of professionals This has greatly increased the possibilities of serious astronomy projects for
which tailor made software has been developed Add a CCD camera to these improved telescopes see Chap 3 and you bring a
whole new dimension to your astronomy see Fig 1.1 Look Before You Leap But first a word of caution Unless you are already
familiar with astronomy and basic telescopes it is not wise to start spending large amounts of money on a featured
telescope Such an instrument might otherwise be subsequently abandoned due to a perceived overcomplexity coupled with a
