How are grade thresholds calculated?

Grade thresholds can vary from year to year, depending on the demand of the question paper. Grade thresholds are not adjusted in line with the ability of students, but in line with the demand of the question paper in relation to the assessment criteria.

Grade thresholds can be found for each subject under the relevant qualification page on our [website](#).

You can also find more detailed information regarding our marking and grading process on our [website](#).

Evidence Check 1 Great Britain. Parliament. House of Commons. Select Committee on Science and Technology, 2009 This report HCP 44 session 2009 10 ISBN 9780215542663 from the Science and Technology Committee looks at literacy programmes evidence check and concludes that expectations by the Department for Children Schools and Families of the quality of the evidence base for reading programmes are worryingly low It urges the Government to commission randomised controlled trials RCTs The Committee also states it is particularly concerned about the quality of evidence demonstrating cost effectiveness of different programmes and further recommends that the Government reviews its guidelines on RCT design it says even Wikipedia is more thorough and informative The Committee also concludes that the Government's focus on early literacy interventions and phonics based teaching is based on the best available evidence the use of Reading Recovery is based on a lower quality of evidence than the Committee is comfortable with and that the decision to introduce Reading Recovery nationally is not evidence based The Committee further expressed alarm that there was a complete lack of randomised controlled trials using standardised test scores for the Reading Recovery programme in the UK school system before national implementation of the programme *Parliamentary Debates (Hansard)*.
