Integrative Understanding of Shale Gas Reservoirs Kun Sang Lee, Tae Hong Kim, 2016-02-03 This timely book begins with an overview of shale gas reservoir features such as natural fracture systems multi fractured horizontal wells adsorption desorption of methane and non linear flow within the reservoir Geomechanical modelling an aspect of importance in ultra low permeability reservoirs is also presented in detail Taking these complex features of shale reservoirs into account the authors develop a numerical model which is verified with field data using the history matching technique Based on this model the pressure transient and production characteristics of a fractured horizontal well in a shale gas reservoir are analysed with respect to reservoir and fracture properties Methods for the estimation of shale properties are also detailed Minifrac tests rate transient tests RTA and type curve matching are used to estimate the initial pressure permeability and fracture half length Lastly future technologies such as the technique of injecting CO₂ into shale reservoirs are presented The book will be of interest to industrial practitioners as well as to academics and graduate students in the field of reservoir engineering

California. Court of Appeal (4th Appellate District). Division 2. Records and Briefs California (State)., **Sierra Leone Private Investment and Financial Sector Development** Dr Ezekiel K. Duramany-Lakkoh, 2020-12-07 This book provides a detailed overview and analysis of key macroeconomics variables in Sierra Leone from 1980 to 2015 Like Sierra Leone and Ghana many nations depend primarily on taxation as a means of galvanizing the required resources needed to meet public expenditure requirements As a result it is critical to study how fiscal variables change and how private investment can improve life for everyone Dr Ezekiel K Duramany Lakkoh dean of the faculty at University of Sierra Leone explores Sierra Leone s fiscal policy and how it s changed over time in this academic work Topics include economic growth beginning in 2010 social and economic reform programs monetary policy and its effect on inflation external and domestic debt management The author also highlights how government spending has influenced private investment at home and abroad as well as how a re established political order has contributed to impressive growth Whether you do business in Sierra Leone want to do business there have a connection to the country or are a citizen or native you ll find valuable insights in this book Probabilistic Transmission System Planning Wenyuan Li, 2011-10-14 The book is composed of 12 chapters and three appendices and can be divided into four parts The first part includes Chapters 2 to 7 which discuss the concepts models methods and data in probabilistic transmission planning The second part Chapters 8 to 11 addresses four essential issues in probabilistic transmission planning applications using actual utility systems as examples Chapter 12 as the third part focuses on a special issue i e how to deal with uncertainty of data in probabilistic transmission planning The fourth part consists of three appendices which provide the basic knowledge in mathematics for probabilistic planning **Between Governing and Governance** Poul F Kjaer, 2010-02-05 This book explains the emergence and functioning of three forms of governance structures within the context of the European integration and constitutionalisation process comitology regulatory

agencies and the Open Method of Co ordination The point of departure is the insight that the intergovernmental supranational distinction which most theories of European integration and constitutionalisation rely on has lost its strength A new paradigm of EU research is therefore needed Against this background it is suggested that the distinction between governing and governance provides a more appropriate basis for analysing the phenomenon of integration and constitutionalisation in Europe The distinction between governing and governance allows for an understanding of the EU as a hybrid consisting of a governing dimension characterised by legal and organisational hierarchy and a governance dimension which operates within a network form characterised by legal and organisational heterarchy The function of governance structures is to ensure the embeddedness of the governing dimension in the wider society Instead of representing contradictory developments the two dimensions are therefore mutually constitutive in the sense that more governing implies more governance and vice versa These theoretical insights are illustrated through two detailed case studies which respectively reconstruct the operational mode of the Open Method of Coordination within EU Research Development Policy and the regulatory system for the EU chemicals market REACH The book is inter disciplinary in nature and incorporates insights from law political science and sociology Coatings and Inks for Food Contact Materials Martin Forrest, 2007-10 This Rapra Review Report Coatings and Inks for Food Contact Materials has attempted to cover all of the coatings and inks products used in food contact scenarios In practice this encompasses an extremely wide range of polymer systems and formulations and an emphasis has been placed on coatings and inks used in food packaging as this is usually regarded as representing the most important application category with respect to the potential for migration to occur In addition to a thorough introduction of the polymers and additives that are used to produce coatings and inks there are also chapters covering the regulation of these materials the migration and analytical tests that are performed on them to assess their suitability for food contact applications the migration data that have been published and the areas in the field that are receiving the most attention for research and development The report is accompanied by around 400 abstracts compiled from the Polymer Library to facilitate further reading on this subject
