

English 101 Essay

Everyone has a different mindset. Some have a fixed mindset. Others have a growth mindset. I feel when I am stressed I have a fixed mindset. I am unfocused and tired I feel as if I can't do anything. It's harder doing online school than being in an actual school. It's just a hard transition from high school to college. I think this is what stresses me out.

Well, a fixed mindset is a belief that your ability and intelligence is just a fixed trait. I feel that my mindset started when I started high was defiantly a fixed one because I thought that I didn't have to do any work because I just started high. When I was in high it made me so stress. All the work we had to do but luckily I had teachers who helped me. With that help over the time I was able to get myself out of a fixed mindset and into a growth one.

A growth mindset is that the most basic abilities can be developed through dedication and hard work. I feel like my growth mindset started to come in During my senior year when I realized that this is my lasted year of high school and that I need to graduate so I can go on to college. I feel as doing things to keep myself in a growth mindset I need to keep myself on track and stop getting distracted.

Well, it was always that I just didn't care I guess that what got me into a fixed mindset. You never know what could get someone into a fixed mindset but for me, it was that I was young and thought that I had the rest of my life to learn. Well, the change that I decided to do was meditate more and get more sleep. I also decided to start exercising to relieve stress.
