Framing and Managing Lean Organizations in the New Economy Darina Lepadatu,Thomas Janoski,2020-02-18 This book examines the dominance and significance of lean organizing in the international economy Scholars from each discipline see lean production as positive or negative the book blends theory with practice by sorting out these different academic views and revealing how lean is implemented in different ways The first part synthesizes academic research from a range of disciplines including engineering sociology and management to present the reader with an integrated understanding of the benefits and drawbacks of lean management The second part links this theory to practice with a set of case studies from companies like Apple Google Nike Toyota and Walmart that demonstrate how lean is implemented in a variety of settings The book concludes with three models explaining how Toyotism Nikefication with offshoring and Waltonism provide full or less complete models of lean production It clearly presents the positive and negative aspects of lean and insights into the culture of lean organizations With its rich interdisciplinary approach Framing and Managing Lean Organizations in the New Economy will benefit researchers and students across a range of classes from management sociology and public policy to engineering

Free to Make Dale Dougherty,2016-09-27 A fascinating study of the global Maker Movement that explores how making impacts our personal and social development perfect for enthusiastic DIY ers Dale Dougherty creator of MAKE magazine and the Maker Faire provides a guided tour of the international phenomenon known as the Maker Movement a social revolution that is changing what gets made how it s made where it s made and who makes it Free to Make is a call to join what Dougherty calls the renaissance of making an invitation to see ourselves as creators and shapers of the world around us As the internet thrives and world changing technologies like 3D printers and tiny microcontrollers become increasingly affordable people around the world are moving away from the passivity of one size fits all consumption and command and control models of education and business Free to Make explores how making revives abandoned and neglected urban areas reinvigorates community spaces like libraries and museums and even impacts our personal and social development fostering a mindset that is engaged playful and resourceful Free to Make

asks us to imagine a world where making is an everyday occurrence in our schools workplaces and local communities grounding us in the physical world and empowering us to solve the challenges we face *Proxistant Vision* Synne Tollerud Bull, Dragan Miletic, 2025-06-24 How the surge in aerial technologies such as drones and satellites influences visual culture beyond the screen The smooth flight from aerial overview to intimate close up in Martin Scorsese's *Hugo* 2011 exemplifies the concept of proxistant vision a combination of proximity and distance close up and overview detail and the big picture in a unified visual form In *Proxistant Vision* Synne Bull and Dragan Miletic develop the concept of proxistant vision and trace its emergence as a visual paradigm of the twenty first century As exemplified by Google Earth's digital swipe between globe perspective and street level detail proxistant vision currently proliferates across digital geography computer games architectural models data visualizations and CGI cinema It is defined as the combination of proximity and distance in a single image across a dynamic flight or zoom Pointing to the surge in aerial imaging and remote sensing technologies such as drones and satellites the book moves beyond the screen to include the kinetic architecture of rides and urban observation wheels The key objective of this study is threefold to trace the genealogy and understand the technical operation of proxistance as it traveled from periphery to center in the twenty first century to explore its alternative potentialities in contemporary art practices and finally to reflect critically on the worldviews underpinning different modalities of proxistance in times of environmental crisis The authors show how the powerful effect of combining proximity and distance which was already in place with the earliest cartographic inscriptions has taken precedence on and beyond our screens today

Spanian Spanian, 2021-12-01 By the time he was twelve Spanian knew he would follow his family's footsteps to become a career criminal What followed was a decade long string of brazen crimes and brutal violence stabbings ram raids drug runs and a notorious high school siege Throughout the Sydney social housing enclaves of Redfern Waterloo and Woolloomooloo Spanian earned a reputation as one of the city's most flagrant crooks armed with a boxcutter in one hand and a syringe in the other But it all came at a damning price in the throes of heroin addiction and thirteen years wasted behind bars Spanian became a longstanding resident of jails across New South Wales There he was embroiled in racial divisions prison politics and a vicious vortex of self destruction until music and books became an unlikely lifeline Reading and rapping became new rituals and a glistening light at the end of the tunnel Released from Bathurst Correctional Centre in 2017 with newfound purpose Spanian has since found viral fame and a sprawling worldwide audience through hip hop and his magnetic social media presence This is the powerful unflinching and high octane memoir of how a young inner city kid became Spanian It gives unapologetic insight into the gritty socio economic underbelly of Sydney city the criminal justice system and the correctional system The story of Spanian provides hope that even the most stubborn cycles can be broken and new dreams made
