

WHAT IS GEOGRAPHY?

Geography is the study of places and the relationships between people and their environments.

A geographer is a physical scientist, social scientist or humanist whose area of study is geography. They explore the physical properties of Earth and the human behaviour across it.

There are three types of geography: physical geography (*the effects it has on people and the environment*), human geography (*concerned with people*) and environmental geography (*how people behaviour can affect the environment*).

Geography 2june Paperdbe

Annelies Wilder-Smith

Geography 2june Paperdbe:
