Partial Differential Equations of First Order and Their Applications to Physics Gustavo López, 1999 This book is about the theory and applications of Partial Differential Equations of First Order PDEFO Many interesting topics in physics such as constant motion of dynamical systems renormalization theory Lagrange transformation ray trajectories and Hamilton Jacobi theory are or can be formulated in terms of partial differential equations of first order In this book the author illustrates the utility of the powerful method of PDEFO in physics and also shows how PDEFO are useful for solving practical problems in different branches of science The book focuses mainly on the applications of PDEFO and the mathematical formalism is treated carefully but without diverging from the main objective of the book

Recording for the Blind & Dyslexic, ... Catalog of Books, 1996 **High Resolution Focused Ion Beams: FIB and its Applications** Jon Orloff, Lynwood Swanson, Mark Utlaut, 2012-12-06 In this book we have attempted to produce a reference on high resolution focused ion beams FIBs that will be useful for both the user and the designer of FIB instrumentation We have included a mix of theory and applications that seemed most useful to us The field of FIBs has advanced rapidly since the application of the first field emission ion sources in the early 1970s The development of the liquid metal ion source LMIS in the late 1960s and early 1970s and its application for FIBs in the late 1970s have resulted in a powerful tool for research and for industry There have been hundreds of papers written on many aspects of LMIS and FIBs and a useful and informative book on these subjects was published in 1991 by Phil Prewett and Grame Mair Because there have been so many new applications and uses found for FIBs in the last ten years we felt that it was time for another book on the subject
