Indigenous, Traditional, and Folk Sports Mariann Vaczi,Alan Bairner,2023-10-06 This is the first book to focus on
indigenous traditional and folk sports and sporting cultures It examines the significance of sporting cultures that have
survived the emergence and diffusion of western sports and have carved out a unique position not only in spite of modernity
but also in response to it Presenting case studies from around the world including from Europe Asia Africa and the Americas
this book draws on multidisciplinary work from sociology anthropology history cultural studies and political science exploring
key themes in the social sciences including nationalism identity decolonisation and gender From Turkish oil wrestling
kabaddi in South Asia Iroquois lacrosse to wushu and sumo in East Asia and various European traditional sports these
sporting practices continue to capture the indigenous imagination on the margins of the western hegemonic sport complex
Situating in the fissures between the local the national and the global between the archaic and the modern and between ritual
and record they inhabit a liminal space of transformation as they assume new cultural and political meanings offering
important perspectives on the complexities and contradictions of modernity The volume s decolonial perspective lies in its
promotion of indigenous and subaltern worldviews through their traditional movement cultures on the margins of the
