**Animal Ethics** Robert Garner, 2005-09-02 This book is an attempt to lead the way through the moral maze that is our relationship with nonhuman animals Written by an author with an

established reputation in this field the book takes the reader step by step through the main parameters of the debate demonstrating at each turn the different positions adopted In the second part of the book the implications of holding each position for the ethical permissibility of what is done to animals in laboratories farms the home and the wild are explained Garner starts by asking whether animals have any moral standing before moving on to assess exactly what degree of moral status ought to be accorded to them It is suggested that whilst animals should not be granted the same moral status as humans they are worthy of greater moral consideration than the orthodox animal welfare position allows As a result it is suggested that many of the ways we currently treat animals are morally illegitimate In the final chapter the issue of political praxis is tackled How are reforms to the ways in which animals are treated to be achieved This book suggests that currently dominant debates about insider status and direct action are less important than the question of agency That is the important question is not what is done to change the way animals are treated as much as whom is to be mobilised to join the cause

**Disputed Messiahs** Rebekka Voß, 2021-11-30 Jewish and Christian messianic thought and activism in the Reformation era in the Ashkenazic world Disputed Messiahs Jewish and Christian Messianism in the Ashkenazic World during the Reformation is the first comprehensive study that situates Jewish messianism in its broader cultural social and religious contexts within the surrounding Christian society By doing so Rebekka Vo shows how the expressions of Jewish and Christian end time expectation informed one another Although the two groups disputed the different messiahs they awaited they shared principal hopes and fears relating to the end of days Drawing on a great variety of both Jewish and Christian sources in Hebrew Yiddish German and Latin the book examines how Jewish and Christian messianic ideology and politics were deeply linked It explores how Jews and Christians each reacted to the other's messianic claims apocalyptic beliefs and eschatological interpretations and how they adapted their own views of the last days accordingly This comparative study of the messianic expectations of Jews and Christians in the Ashkenazic world during the Reformation and their entanglements contributes a new facet to our understanding of cultural transfer between Jews and Christians in the early modern period Disputed Messiahs includes four main parts The first part characterizes the specific context of Jewish messianism in Germany and defines the Christian perception of Jewish messianic hope The next two parts deal with case studies of Jewish messianic expectation in Germany Italy and Poland While the second part focuses on the messianic phenomenon of the prophet Asher Lemlein part 3 is divided into five chapters each devoted to a case of interconnected Jewish Christian apocalyptic belief and activity Each case study is a representative example used to demonstrate the interplay of Jewish and Christian eschatological expectations The final part presents Vo's general

conclusions carving out the remarkable paradox of a relationship between Jewish and Christian messianism that is controversial albeit fertile Scholars and students of history culture and religion are the intended audience for this book
