Hack Graham Johnson, 2012-05-10 Graham Johnson was a fresh faced journalist with an ambition to break the big news stories and make his name as a star reporter when an offer came in to work at a leading tabloid he couldn't say no Instantly he found himself drawn into a world of sleaze spin and corruption where bending the law was justifiable in the hunt for the big selling story and bending the truth was the norm Against his better judgement Graham found his niche in this new world and what's more he found that he was good at it In his time at first the News of the World then the Sunday Mirror he made a name for himself as a man who could deliver the story no matter what a kind of tabloid terrorist who rifled through celebrity's rubbish bins stalked out politicians hotel rooms and paid up page three girls to seduce Premiership footballers all in the name of scoring a front page story Hack is a compelling and intoxicating story of one man's time in the tabloid jungle a world that in its heady mix of sex drugs and casual immorality is reminiscent of the City and how he ultimately saved himself

The book examines the different aspects of events management. It is divided into three parts. The first part provides an introductory outline of the historical developments and current state of the industry while also taking into account wider political and cultural issues. The second part of the book concentrates on practical operations management including planning, project management, marketing, human resource management, health and safety, logistics and funding. Finally, the third part covers critical issues such as impacts, sustainability and legacy of events. Each chapter contains case studies from around the world and review questions ensuring that the book is a useful learning tool and provides a current and up-to-date view of the industry in this increasingly popular field of study. The publication is designed for students and practitioners in the event sector and has been developed so that readers are able to understand theory and concepts presented through applied examples. **Global Media, Biopolitics, and Affect** Britta Timm Knudsen, Carsten Stage, 2014-12-05. Global Media, Biopolitics and Affect shows how mediations of bodily vulnerability have become a strong political force in contemporary societies. In discussions and struggles concerning war involvement, healthcare issues, charity, democracy, movements, contested national pasts and climate change, performances of bodily vulnerability is increasingly used by citizens to raise awareness, create sympathy, encourage political action and to circulate information in global media networks. The book thus argues that bodily vulnerability can serve as a catalyst for affectively charging and disseminating particular political events or issues by means of media. To investigate how, when and why that happens and to evaluate the long-term social impacts of mediating bodily vulnerability, the book offers a theoretical framework for understanding the role of bodily vulnerability in contemporary digital media culture. Likewise, it presents a range of close empirical case studies in the areas of illness blogging, global protests after the killing of Neda Agha Soltan in Iran, charity communication, green media activism, online war commemoration and digital witnessing related to conflicts in Sarajevo and Ukraine. **Innovative Marketing Communications** Guy Masterman, Emma Wood, 2007-06-01. Innovative Marketing Communications for Events Management provides students and event managers with a complete insight into the strategic and innovative marketing of events of all scales and nature. The book builds a conceptual framework for the development, planning, implementation and evaluation of innovative communication strategies for the marketing of events and the effective use of events as an innovative communications method in general organizational marketing. With a strong practical underpinning, Innovative Marketing Communications for Events Management emphasises to event managers the importance of effectively integrating a range of tools and techniques to communicate the event and provides them with a better understanding of how a variety of private and public sector organisations can use events within their communication.
