KEY POINTS

- Google AdSense is a free ad monetization platform where new publishers can earn revenue through ads displayed on their website or application. Google then pays the publisher based on the number of clicks or impressions each ad receives.
- There are some best practices that can help you optimize your monetization strategy, including demand diversification and minimizing ad clutter, some of which are not available when using AdSense.
- Due to the limitations, many publishers transition from Google AdSense to a platform or partner, such as Playwire, with more advanced functionality relatively early in their ad monetization journey.
