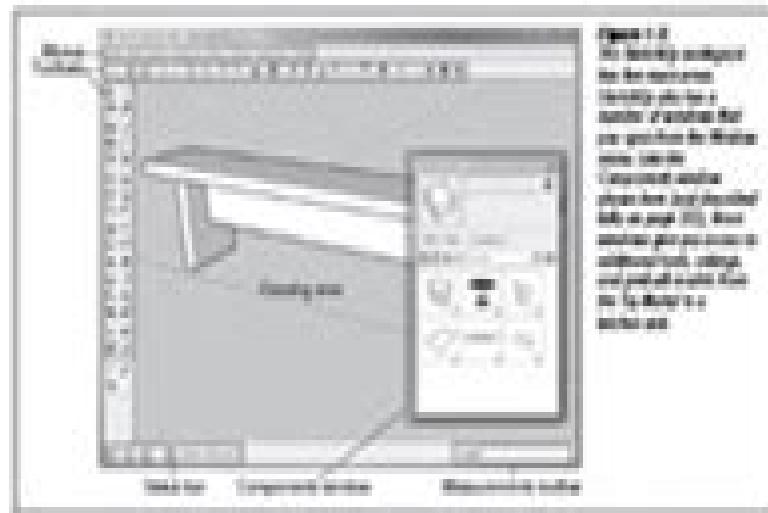

Figure 1-1 The SketchUp window. The SketchUp window is the main window for SketchUp. It contains a toolbar, a menu bar, and a 3D view. The toolbar is on the left, the menu bar is at the top, and the 3D view is in the center. The 3D view shows a 3D model of a desk. The toolbar contains tools for creating, editing, and deleting 3D models. The menu bar contains menus for File, Edit, Window, and Help. The 3D view shows a 3D model of a desk, which is the main focus of the software.

In addition to the five main windows, SketchUp also includes several different windows, such as the Component window that's open in Figure 1-1. You can open and close these as needed by using the Window menu. With the tools in these windows, you'll apply color and shading to your models, select prefabricated components, add shadows and lighting effects, and export your project.

Don't Be Afraid to Play

When you get started, don't be afraid to play. SketchUp is a 3D modeling software, and it's designed to be fun. You can create 3D models of anything you can imagine, and you can share your models with others. So don't be afraid to play. SketchUp is a 3D modeling software, and it's designed to be fun. You can create 3D models of anything you can imagine, and you can share your models with others. So don't be afraid to play.

SketchUp's menu bar is stocked with the usual suspects, such as File, Edit, Window, and Help. SketchUp's View menu is a little different from the ones in most programs (Figure 1-2). The View menu has items in the SketchUp window that you can show or hide, including things like the drawing guides, wire frame, measurement tools, and view different models. If you're looking for tools that change over time of the SketchUp window, such as a View or the tool, look under the View menu.
