Conservation Drones Serge A. Wich, Lian Pin Koh, 2018-05-31 Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up to date data on the distribution and density of species as well as the threats to their habitats in their ongoing attempts to conserve and monitor biodiversity Conservation drones are low cost autonomous and operator friendly unmanned aerial vehicles that can be used for surveying mapping and monitoring both habitat and biodiversity They are fast becoming a valuable complement to ground based surveys and satellite imagery for a wide range of ecological and conservation applications The authors pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia They subsequently founded ConservationDrones.org to share their knowledge of building and using drones with colleagues in the wider environmental community This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies for practical conservation

Man-Machine Interactions 2 Tadeusz Czachorski, Stanislaw Kozielski, Urszula Stanczyk, 2011-08-30 Man machine interaction is the interdisciplinary field focused on a human and a machine in conjunction It is the intersection of computer science behavioural sciences social psychology ergonomics security It encompasses study design implementation and evaluation of small and large scale interacting computing hardware and software systems dedicated for human use Man machine interaction builds on supportive knowledge from both sides the machine side providing techniques methods and technologies relevant for computer graphics visualisation programming environments the human side bringing elements of communication theory linguistics social sciences models of behaviour The discipline aims to improve ways in which machines and their users interact making hardware and software systems better adapted to user's needs more usable more receptive and optimised for desired properties This monograph is the second edition in the series providing the reader with a selection of high quality papers dedicated to current progress new developments and research trends in man machine interactions area In particular the topical subdivisions of this volume include human computer interfaces robot control and navigation systems bio data analysis and mining pattern recognition for medical applications sound text and image processing design and decision support rough and fuzzy systems crisp and fuzzy clustering prediction and regression algorithms and optimisation and data management systems

Hero 5 Black: The Complete Guide Michael Galeso, 2017-01-11 The latest release from GoPro is the new Hero5 Black camera This new device is the latest in the Hero line of cameras and was released to the public in October 2016 along with another Hero camera the Hero5 Session The Hero5 has received accolades for staying true to the GoPro standard of being rugged but savvy and modern Since its release the reviews refer to primary features that include the sealed rubberized chassis that enables its use in any climate or environment Other notable features of the new camera include its

Waterproof depth rating of up to 33 feet voice control for giving instructions to the device one button control two 2 rear touchscreen display and wind noise reduction The camera also boasts automatic upload to the Cloud Wi Fi and Bluetooth connection capabilities twelve 12 megapixels for still images time lapse and Wide Dynamic Range modes and 30 frames per second video recording capabilities The new camera also boasts built in GPS and 1times twelve 12 CMOS Sensor

OpenVX Programming Guide Frank Brill,Victor Erukhimov,Radhakrishna Giduthuri,Steve Ramm,2020-05-22 OpenVX is the computer vision API adopted by many high performance processor vendors It is quickly becoming the preferred way to write fast and power efficient code on embedded systems OpenVX Programming Guidebook presents definitive information on OpenVX 1 2 and 1 3 the Neural Network and other extensions as well as the OpenVX Safety Critical standard This book gives a high level overview of the OpenVX standard its design principles and overall structure It covers computer vision functions and the graph API providing examples of usage for the majority of the functions It is intended both for the first time user of OpenVX and as a reference for experienced OpenVX developers Get to grips with the OpenVX standard and gain insight why various options were chosen Start developing efficient OpenVX code instantly Understand design principles and use them to create robust code Develop consumer and industrial products that use computer vision to understand and interact with the real world

Guide to 3D Photography Edward Mitchell, MS, MBA,2013-11-04 Guide to 3D Photography is for the beginning 3D photographer showing how to get started how to process images on your computer or tablet and how to view your 3D photographs You can begin shooting 3D photos using one camera or two or using integrated 3D cameras This is a hands on guide with step by step examples for shooting processing and displaying your 3D images This guide is intended for the novice to mid skill level 3D enthusiast this guide is not targeted at experienced 3D photographers Anyone can shoot and process 3D this book shows you how Using free software that runs on Windows based personal computers or free or low cost apps for iPad or Android tablets and smart phones your stereo photographs can be turned into viewable 3D photos for display on your computer displayed online or printed on paper or turned in to glasses free 3D prints for a service fee While 3D TVs and monitors provide the best viewing experience you can get started with free or very low cost filtered glasses You ll even learn how to create 3D photos that can be viewed without any glasses or special hardware NOT RECOMMENDED for Black White or gray scale e readers as the 3D color photographs in the books can not be viewed however the photos are available separately online RECOMMENDED FOR COLOR E READERS including color tablets and e reader software on tablets notebooks and desktop computers Guide to 3D Photography covers learning how to see in 3D to achieve the best 3D effects while avoiding common 3D problems that can ruin 3D photos or cause eyestrain for viewers The book also covers methods for shooting 3D with one camera with two cameras or with commercially made special purpose 3D cameras and viewing 3D photos on 3D monitors Advanced topics include the concept of a 3D depth box the importance of the spacing between the left and right image lenses and how that impacts depth captured in the photograph advanced image

processing techniques and methods of creating wiggle animated 3D images as well as red cyan green magenta yellow blue and amber blue anaglyphs 183 PDF pages Over 100 photos including red cyan anaglyph 3D cross eyed 3D and 2D photographs Over 50 illustrations drawings or screen shots Table of Contents Contents Trademarks and Copyrights Preface Chapter 1 Introduction to 3D Photography Chapter 2 Shooting and Processing Your First 3D Photo Chapter 3 Processing 3D Images on iPad and Android Tablets Chapter 4 Learning to see in 3D Chapter 5 Using Two Cameras for 3D Photography Chapter 6 Integrated 3D Cameras Chapter 7 Displaying 3D photos Chapter 8 Additional Stereoscopic Image Corrections Chapter 9 Advanced 3D Image Shooting and Processing Chapter 10 Afterword The Future of 3D Photography and 3D Video

Applications and Usability of Interactive TV María José Abásolo, Telmo Silva, Nestor D. González, 2019-07-04 This book constitutes the refereed proceedings of the 7th Iberoamerican Conference on Applications and Usability of Interactive Television jAUTI 2018 in Bernal Argentina in October 2018 The 13 full papers presented were carefully reviewed and selected from numerous submissions The papers are organized in topical sections on Contexts of application of the IDTV Design and Implementation Techniques of IDTV Content and Services Interaction Techniques Technologies and Accesibility of IDTV Services Testing and User Experience of IDTV Services

Unmanned Aerial Remote Sensing David R. Green, 2020-07-10 Unmanned Aircraft Systems UAS are a rapidly evolving technology with an expanding array of diverse applications In response to the continuing evolution of this technology this book discusses unmanned aerial vehicles UAVs and similar systems platforms and sensors as well as exploring some of their environmental applications It explains how they can be used for mapping monitoring and modeling a wide variety of different environmental aspects and at the same time addresses some of the current constraints placed on realizing the potential use of the technology such as s flight duration and distance safety and the invasion of privacy etc Features of the book Provides necessary theoretical foundations for pertinent subject matter areas Introduces the role and value of UAVs for geographical data acquisition and the ways to acquire and process the data Provides a synthesis of ongoing research and a focus on the use of technology for small scale image and spatial data acquisition in an environmental context Written by experts of the technology who bring together UAS tools and resources for the environmental specialist Unmanned Aerial Remote Sensing UAS for Environmental Applications is an excellent resource for any practitioner utilizing remote sensing and other geospatial technologies for environmental applications such as conservation research and planning Students and academics in information science environment and natural resources geosciences and geography will likewise find this comprehensive book a useful and informative resource

Sensors and Techniques for 3D Object Modeling in Underwater Environments Fabio Menna, Fabio Remondino, Hans-Gerd Maas, 2018-09-28 This book is a printed edition of the Special Issue Sensors and Techniques for 3D Object Modeling in Underwater Environments that was published in Sensors

3D Recording and Interpretation for Maritime

Archaeology John K. McCarthy, Jonathan Benjamin, Trevor Winton, Wendy van Duivenvoorde, 2019-03-06 This open access

peer reviewed volume was inspired by the UNESCO UNITWIN Network for Underwater Archaeology International Workshop held at Flinders University Adelaide Australia in November 2016 Content is based on but not limited to the work presented at the workshop which was dedicated to 3D recording and interpretation for maritime archaeology The volume consists of contributions from leading international experts as well as up and coming early career researchers from around the globe The content of the book includes recording and analysis of maritime archaeology through emerging technologies including both practical and theoretical contributions Topics include photogrammetric recording laser scanning marine geophysical 3D survey techniques virtual reality 3D modelling and reconstruction data integration and Geographic Information Systems The principal incentive for this publication is the ongoing rapid shift in the methodologies of maritime archaeology within recent years and a marked increase in the use of 3D and digital approaches This convergence of digital technologies such as underwater photography and photogrammetry 3D sonar 3D virtual reality and 3D printing has highlighted a pressing need for these new methodologies to be considered together both in terms of defining the state of the art and for consideration of future directions As a scholarly publication the audience for the book includes students and researchers as well as professionals working in various aspects of archaeology heritage management education museums and public policy It will be of special interest to those working in the field of coastal cultural resource management and underwater archaeology but will also be of broader interest to anyone interested in archaeology and to those in other disciplines who are now engaging with 3D recording and visualization

Digital Ultraviolet and Infrared Photography Adrian Davies, 2017-10-03 Digital Ultraviolet and Infrared Photography discusses the growing number of applications of ultraviolet and infrared photography Scientific and technical photographers such as those engaged in scientific medical forensic and landscape and wildlife photography routinely use ultraviolet and infrared techniques and these techniques are growing in use in creative photography This is the first book to address the application and potential for both ultraviolet and infrared photography in both science and art The author Adrian Davies discusses the how to of ultraviolet and infrared digital recording with a dissection of techniques camera requirements and camera conversion a useful appendix of resources and equipment currently available and inspirational image examples throughout Digital Ultraviolet and Infrared Photography is an essential read for photographers using these tools either professionally or creatively

Unmanned Aerial Vehicle Systems in Crop Production K. R. Krishna, 2019-07-11 This volume responds to the growing interest in adopting aerial robots UAVs or drones for agricultural crop production which are revolutionizing farming methods worldwide The book provides a detailed review of 250 UAVs that examines their usefulness in enhancing profitability yield and quality of crop production Recent trends indicate an increase in agricultural drone production and use Millions of dollars have been invested in start ups that produce agro drones in the past several years North America Europe China and the Far East have excelled in offering a large number of UAV models Some of them are versatile a few are specific and many of them are low cost With so many drone models over

1200 available how do farmers and agricultural specialists choose the models best for them This compendium examines the most useful drones and provides the pertinent details about each drone its producer cost incurred and its pros and cons It covers their technical specifications suitability for various purposes previous performances in farms and possible benefits to farmers It covers fixed wing drones fixed winged hybrid VTOL helicopters multi copters tilted wing drones etc The book includes a few drones meant more for military or other purposes e g recreation fun but that could be easily modified and adapted for the farming sector The reviews compare activities among the UAVs such aerial imagery of crops ability to provide spectral analyses to collect useful data about a crop s growth patterns and how they can be used to gauge crop canopy temperature i e water stress index determine grain maturity and much more [The Shut Up and Shoot Video Production Guide](#) Anthony Q. Artis,2023-07-24 Anthony Q Artis is a 30 year veteran of the fi lm and TV industry whose features and TV shows have screened at the Tribeca Film Festival and the IFP Market as well as on MTV and the Independent Film Channel Anthony works professionally as a producer director and cinematographer at MightyAntMedia com and has taught video production at New York University for two decades now He is the author of the bestselling Shut Up and Shoot Documentary Guide 2014 The Shut Up and Shoot Freelance Video Guide 2011 and numerous fi lmmaking courses on LinkedInLearning com Accessible and comprehensive this book is a great introduction on how to make movies and video projects with limited resources time or experience Artis will teach readers the Down and Dirty filmmaking mindset which forces fi lmmakers to be creative with their resources do more with less and result in a better faster and less expensive product Drawing on more than 30 years of experience Artis covers such wide ranging topics as composition lens choice smartphone filmmaking audio equipment lighting and grip basics and much more With more than 500 full color pictures tips from pros checklists and case studies readers will be well prepared to apply their knowledge to their shoots Written by an indie filmmaker for indie filmmakers this book is perfect for rookies veterans and students who want to maximize their budget while turning in top quality work [Video Nation](#) Jefferson Graham,2012-07-10 A DIY guide to planning shooting and sharing great video from USA Today Talking Tech host All kinds of people are creating video for the web bloggers small business owners web show hosts and corporate marketing departments to name just a few How do the best videos get made and go viral What secrets lie behind them In Video Nation you ll learn everything you need to make great looking video for YouTube Facebook or your blog from one of the top experts around Jefferson Graham host of USA Today s Talking Tech and Talking Your Tech takes you skillfully through the art of video creation and distribution And you ll have a lot of fun along the way You ll learn what equipment you need to get started from bare bones to wish list state of the art great You ll get the skinny on sound and lighting You ll learn how to properly set up for and shoot an interview You ll even get to take your video to the next level by using multiple cameras as they do on TV You ll also find 30 downloadable video lessons so you see the concepts from the book in action including how to make a great video on an iPhone lighting techniques simple editing
