**Ethics in paediatric nursing** Gosia Brykczynska, 2013-11-11 The idea to write a book on ethical issues pertaining to paediatric nursing has been aired for quite some time The single most significant factor in holding up the creation of such a book was the lack of expertise in one person of all the areas of paediatric nursing The problem was resolved by producing an edited book covering various specialities of paediatric nursing Undoubtedly one could have included more detailed coverage of particular speciality areas e.g. chapters on ethical issues surrounding adolescent care child abuse teenage mothers behaviour modification programmes and so on The approach we took however stressed the overall unity of paediatric nursing where the specialities are wide enough to take in all paediatric nursing activities from

neonatal care to adolescent health screening I am certainly very aware that the book would not have been written and produced without the support enthusiasm and co operation of the chapter writers I would also especially like to thank Christine Birdsall Nursing Editor at Chapman and Hall and my colleagues at the Charles West School of Nursing Joanna Parkes and Imelda Charles Edwards for their continuing support and my family and friends all of whom bore with me during the last two years

**Caring** Gosia M. Brykczyńska,1997 Caring The Compassion and Wisdom of Nursing is a collection of essays that will encourage nurses to consider more deeply what caring means to them to their patients to society and to their profession Aimed at a wide audience of nurses this text is a valuable resource for all health professionals interested in caring and the arena in which it takes place The authors look at the cultural and historical origins of caring the practical and professional responsibilities that caring involves the personal and professional strengths necessary in order to care and the role that the arts and humanities play in promoting caring sensitivities This unique approach to the subject puts caring into a sharp and clear focus Each chapter requires a different type of reflection and the various approaches together form an interesting picture of both the complexities and simplicities inherent in caring
