Introducing Sociology Using the Stuff of Everyday Life Josee Johnston, Kate Cairns, Shyon Baumann, 2017-01-06 The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners This is not an issue of pandering to students or otherwise seeking the lowest common denominator On the contrary it is a question of again making the practice of sociological thinking meaningful rigorous and relevant to today's world of undergraduates This comparatively concise highly visual and affordable book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist's teaching arsenal the familiar stuff in students everyday lives throughout the world the jeans they wear to class the coffee they drink each morning or the phones their professors tell them to put away during lectures A focus on consumer culture seeing the strange in the familiar is not only interesting for students it is also the authors suggest pedagogically superior to more traditional approaches By engaging students through their stuff this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking It moves beyond describing what sociology is so that students can practice what sociological thinking can do This pedagogy also posits a relationship between

teacher and learner that is bi directional Many students feel a sense of authority in various areas of consumer culture and they often enjoy sharing their knowledge with fellow students and with their instructor Opening up the sociology classroom to discussion of these topics validates students expertise on their own life worlds Teachers in turn gain insight from the goods services and cultural expectations that shape students lives While innovative the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester A map on pages ii iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained Theory method and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology

Chicago Hustle and Flow Geoff Harkness, 2014-09-01 On September 4 2012 Joseph Coleman an eighteen year old aspiring gangsta rapper was gunned down in the Englewood neighborhood of Chicago Police immediately began investigating the connections between Coleman s murder and an online war of words and music he was having with another Chicago rapper in a rival gang In Chicago Hustle and Flow Geoff Harkness points out how common this type of incident can be when rap groups form as extensions of gangs Gangs and rap music he argues can be a deadly combination Set in one of the largest underground music scenes in the nation this book takes readers into the heart of gangsta rap culture in Chicago From the electric buzz of nightclubs to the sights and sounds of bedroom recording studios Harkness presents gripping accounts of the lives beliefs and ambitions of the gang members and rappers with whom he spent six years A music genre obsessed with authenticity gangsta rap promised those from crime infested neighborhoods a ticket out of poverty But while firsthand experiences with gangs and crime gave rappers a leg up it also meant carrying weapons and traveling collectively for protection Street gangs serve as a fan base and provide protection to rappers who bring in income and help to recruit for the gang In examining this symbiotic relationship Chicago Hustle and Flow ultimately illustrates how class stratification creates and maintains inequalities even at the level of a local rap music scene
