**Marginality and Global LGBT Communities** Sheri R. Notaro, 2019-08-23 This book examines the interconnectedness of LGBT civil and political rights bias discrimination homophobia and LGBT health disparities both in the United States and globally According to Notaro the failure to extend equitable civil and political rights to LGBT individuals combined with recent reversal of past gains will continue to be associated with bias stigma and discrimination toward the LGBT community In turn this sustained bias and stigma fosters a host of LGBT health disparities including access to culturally competent health care HIV AIDS substance use homelessness suicide and violence Thus the bias and discrimination levied at the LGBT community is discussed as a major explanatory factor in life threatening health disparities experienced by the community particularly in urban areas worldwide The volume provides a framework for considering future research that must identify ways to prevent these health disparities being mindful of and harnessing the protective factors and supports that exist within the diverse LGBT community

**Early Formal Education** Robert Hess, 2017-09-29 The future of any society lies in its ability to train and socialize its young The stability of its institutions political systems the productivity of its industrial resources and the creativity of its intellectual talent reflect the success of those who have been given responsibility for shaping and developing its youth If these teaching functions are not adequately performed through failure of the agents as a result of new demands

created by new values social economic or political change pressures may emerge for the modification of socializing procedures or for a change in the agents allocated responsibility for socialization Some major questions answered in this book include At what age should formal education begin What effect does the timing of education have on a child s later social and educational development Do pre school years deserve the fiscal resources and professional talent now being allocated to them Can socially and economically disadvantaged children be successfully educated without involving families and community What is the role of technology in the early education process This volume brings together the work of active and articulate spokespersons in the field of early education during the 1960s It makes explicit the concepts theories and empirical data upon which the field as a whole is proceeding These contributions from leading psychologists child development researchers and educators cover an unusually broad range of issues Providing a reference on theories and existing programs in the field of early learning and offering many suggestions for the course and content of today s programs this volume is important reading in child development and the psychology and sociology of education
