van de Vooren,2019-06-01 Als we denken aan de toekomst zijn we vaak pessimistisch en geloven we dat onze westerse beschaving wordt bedreigd en misschien wel zal verdwijnen Sommigen duiden de huidige conflicten in de wereld als een botsing van beschavingen Maar wat is precies de definitie van een beschaving en welke factoren zijn van invloed op de opkomst bloei en ondergang van beschavingen Auteur Floris van de Vooren gaat in zijn boek uitgebreid in op deze vragen Aan de hand van een scenarioanalyse analyseert hij de werking van de factoren die de ontwikkeling van beschavingen beïnvloeden Daarbij maakt hij gebruik van een wiskundig model Zoals Van de Vooren beschrijft heeft elke beschaving zijn eigen karakteristiek Daarbij wordt rekening gehouden met het feit dat alle huidige beschavingen met mondiale ontwikkelingen op het gebied van automatisering genetica en milieu te maken hebben De bestaande beschavingen worden aan de hand van hun bevolking economie en militaire uitgaven met elkaar vergeleken Tenslotte positioneert de auteur ze op basis van een tentatieve berekening van hun kracht De analyse in dit boek stelt ons in staat de vraag te beantwoorden waarom sommige beschavingen ten onder gaan en andere niet Het Westen staat voor een aantal uitdagingen waarop de antwoorden van grote betekenis zijn voor de verdere ontwikkeling van onze beschaving *China Resurrected* Frans-Paul van der

Putten,2025-06-12 China's rise to superpower is seemingly a modern phenomenon but it has a long history This book follows China's geopolitical transformation on the world stage from struggling to defend herself against the British in the Opium Wars to rivalling the United States for supremacy What started as a response to Europe's colonial influence has gradually become China's quest to take a leading role on the world stage But how did this happen And what kind of actor is China as a global great power The answers to these questions lie in how China has been shaped by its changing relationships with major world powers over the last two centuries Arguing that a series of military defeats in the Opium Wars Boxer Crisis and Japanese occupation led to a deep rooted national sense of geopolitical vulnerability van der Putten shows how this imbalance of power has resulted in Chinese distrust and uncertainty even after it ceased to be prey to imperialist powers Tracing China's relations with other major powers over the last 185 years *China Resurrected* shows how they have influenced the way in which China itself has become a leading power and what this means for its relations with the West

The Market and the Oikos, Vol. II Hans Derks,2022-03-21 Both Karl Marx and Max Weber inspired the writing of the

two volumes of *The Market and the Oikos* Weber coined a market versus oikos contradiction in which oikos not only means house household or family but later also the state while Marx saw a town versus country antagonism Both scholars however explained insufficiently these most complicated concepts let alone some mutual relationships This second volume *The Market and the Oikos Vol II The Peasant and the Nomad in History* continues the analysis of their antagonisms in their mutual relationships by providing the main practical characteristics in different historical economic and sociological contexts based on the writing of Max Weber as explained in Vol I While the first volume tried to characterize the relationships from economic and historical points of view this second volume takes a historical sociological angle In both volumes Hans Derks argument proceeds from early world historical examples to the present context of contemporary China stressing the highly neglected role of nomads in history

Philosophy on Bamboo Dirk Meyer, 2011-11-14 Scholarship on early Chinese thought has long tended to treat texts as mere repositories of ideas rather than as meaningful objects in their own right Not only does this approach present an idealised account of China s intellectual past but it also imposes artificial boundaries between textual and philosophical traditions As the first study to treat text as a cultural phenomenon during the Warring States period this book demonstrates the interplay among the material conditions of text and manuscript culture writing and thought Through close readings of philosophical texts excavated at Gu di n it analyses crucial strategies of meaning construction and casts light on the ways in which different communities used texts to philosophical ends Meyer thus establishes new understandings of the correlation between ideas their material carrier and the production of meaning in early China
