The launch of a number of national translation projects, policies and awards in a number of Arab countries together with the increasing translation from Arabic in a wide range of subject areas outside the Arab World especially in the aftermath of the Arab Spring have complicated and diversified the dynamics of the translation industry involving Arabic. The Routledge Handbook of Arabic Translation seeks to explicate Arabic translation practice, pedagogy and scholarship with the aim of producing a state of the art reference book that maps out these areas and meets the pedagogical and research needs of advanced undergraduate and postgraduate students as well as active researchers.
