The Greening of Pharmaceutical Engineering, Practice, Analysis, and Methodology M. R. Islam, Jaan S. Islam, Gary M. Zatzman, M. Safiur Rahman, M. A. H. Mughal, 2015-12-03 The pharmaceutical industry is one of the most important industries in the world offering new medicines, vaccines and cures to a global population. It is a massive industry worthy of a deep and thorough examination of its processes and chemistry with a view toward sustainability. The authors describe what is and isn't truly sustainable, offering a new approach and a new definition of the sustainability of pharmaceutical and chemical engineering and the science behind it. This is a cutting edge work aimed at engineers, scientists, researchers, chemists and students.

Organic Chemistry T. W. Graham Solomons, Craig B. Fryhle, Scott A. Snyder, 2023 Organic Chemistry 13th edition provides a comprehensive yet accessible treatment of all the essential organic chemistry concepts with emphasis on relationship between structure and reactivity in the subject. The textbook includes all the concepts covered in a typical organic chemistry textbook but is unique in its skill development approach to the subject. Numerous hands on activities and real world examples are integrated throughout the text to help students understand both the why and the how behind organic chemistry. This International Adaptation offers new and updated content with improved presentation of all course material. It offers new material on several topics including the relevance of intermolecular forces in the immune response and vaccines like those for Covid 19, the chemistry of breathing carbonic anhydrase, how conjugation and complexation affect the color of lobsters and how biodegradable polymers are used to stabilize vaccines and pharmaceuticals. Content is revised to reflect the current understanding of chemical processes and improved depictions of longstanding mechanisms. This edition builds on the ongoing pedagogical strength of the book with the inclusion of additional worked and end of chapter problems and an engaging set of new

problems entitled Chemical Consultant Needed These draw from the primary chemical literature and give students experience of working with more complex polyfunctional structures and areas where key transformations take place
