their Enduros and Scramblers under the DKW badge and the original Sachs Enduro Cross Country and Moto Cross models disappeared from the USA market in late 1971. However, they were replaced by 125cc DKW Enduro Boondocker Moto Cross and Hornet models that were mechanically identical to the previous Sachs models, a true case of badge engineering. In 1968, when Sachs introduced their 100cc and 125cc series of 2 stroke engines, it was not long before the off road and competition world recognized their durability and performance. Consequently, within a short period of time, Sachs engines were in use by a large number of other motorcycle manufacturers. Perhaps the most prominent USA manufacturer being Penton Motorcycles, who produced their first competition Sachs powered models in 1968. Floyd Clymer quickly realized that there was a need for service and repair information for these engines and he set about preparation of an appropriate manual in early 1969.

PENTON - SACHS 1968-1975 BERKSHIRE & SIX DAY 100cc & 125cc WORKSHOP MANUALS Floyd

Clymer, Penton Motorcycles, 2024-04-03 170 pages and more than 300 illustrations and charts size 8 25 x 10 75 inches. This manual is a compilation of 6 publications. It includes the September 1974 workshop manual for the Penton 100cc Berkshire and the 125cc Six Day models plus three Penton illustrated parts lists for those same models. In addition, it also includes the 1969 Floyd Clymer 100cc and 125cc Sachs engines workshop manual plus an illustrated Sachs engine parts list. The off road motorcycle revolution was at its peak by the mid 1960s and while the predominance of those motorcycles were imports, Maico, Honda, Bultaco, Husqvarna, Ducati, to name just a few, there were no USA manufacturers. This situation changed when entrepreneur John Penton struck a deal with KTM to produce a series of off road motorcycles to his specification. This collaboration resulted in the birth of Penton motorcycles, namely the 100cc Berkshire and the 125cc Six Day models. Today, Penton motorcycles are highly sought after classics from the mid 1960s off road revolution. There are few, if any, manuals that deal with the Penton KTM Sachs motorcycles and those that are available are lacking the detail required to repair, maintain, and overhaul the Sachs engines. Floyd Clymer was the first to publish an in depth workshop manual for the 100cc and 125cc Sachs engines and it is included in this publication. The combination of the Penton and Clymer manuals yields a comprehensive workshop manual and the inclusion of the illustrated parts list for both manufacturers will be a major assistance in the repair and or restoration of the Penton Berkshire and Six Day models. Unfortunately, owners of these early Penton motorcycles are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals and parts lists that have recently flooded the marketplace. We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned, used, or even refurbished. In addition, they are often advertised for the incorrect series and or model years.
