Understanding Learning Disabilities Drake Duane, 2012-12-06 The authors of the papers presented in this volume are either members of the International Study Group on Special Educational Needs or their representatives This is a small seminar convened by invitation involving participants from the United Kingdom North America Europe and New Zealand The membership is multi disciplinary and all the participants have a professional interest in some aspect of special educational needs Several historical patterns played a part in the development of the seminar one being the evolution in England and Wales of special education legislation growing out of the Warnock Committee Report This legislation in turn has been influenced by the special education developments in the United States which led to the passage of The Education of All Handicapped Children Act Public Law 94 142 in 1975 A second theme leading to the development of the seminar was the growing interest internationally in learning disabilities and the establishment at the University of Southampton in England of the Learning Disabilities Unit headed by Colin Stevenson Discussions in 1979 and 1980 held at conferences of the Association for Citizens with Learning Disabilities the Orton Dyslexia Society meetings and elsewhere led to the proposal for

a small international seminar meeting annually which would be concerned with research and education in the area of special educational needs The Lord Renwick then Chairman of the British Dyslexia Association and Colin Stevenson took the initiative in proposing that an International Conference be held at the University of Southampton

Resources in Education, 1998-07 *Asha* American Speech-Language-Hearing Association, 1989 Exceptional Children Ronald L. Taylor, Les Sternberg, 2012-12-06 *Exceptional Children Integrating Research and Teaching* provides a comprehensive introduction to the constantly changing area of special education The book is research based and its title reflects our opinion regarding the important link between research and classroom practice There is one feature of *Exceptional Children Integrating Research and Teaching* that warrants attention and perhaps justification it was written specifically to address the graduate student or sophisticated undergraduate student market As such the book is written at a higher level and with a greater concept density than typical introductory special education texts We feel that this type of book is very much needed and will be received favorably by the special education community There are also several unique features of *Exceptional Children Integrating Research and Teaching* that we feel will be quite valuable First we have emphasized the area of teaching practices and not simply included basic facts about definitions characteristics and causes Although some introductory texts include information about teaching considerations that area is not discussed as in depth as it is in our text We feel that it is important that readers not only understand the educational needs of exceptional children but also can identify the best educational practices to meet those needs
