Testimonials

I have the honor of having known Dave Clark since 1984 when I was a student in IFST's Officer's Fireground School where he was an instructor. Throughout Dave's career, he has always been a student of the game. Because of his dedication, experience, research, and years of hands-on instructing, this great book tells how to do the job aggressively and most importantly safely.

Robert S. Hoff
Chicago Fire Commissioner Ret. and IFST Field Instructor

Dave Clark brings decades of experience combating residential fires and presents a commonsense approach to firefighting, addressing what the building is going to do with the fire and what the fire is going to do with the building.

Lew Lake, Battalion Chief, Wheaton FD Ret. and IFST Chicago Training Program Director

I've heard "Get ready, we're going in" many times over the past 40 years working with Chief Dave Clark at IFST. He's fought fires in big cities and small towns, teaching streams and ventilation, but mostly fire behavior and how to use it to your advantage. He is the best at passing along lessons to the fire service.

Pumping Apparatus Driver/Operator Handbook

Ifsta, 2015-05-14

FSTA NEW Editions Streamline Driver Operator Training

The new editions of these bestselling IFSTA fire apparatus driver/operator training materials mark a new approach to training driver operators. Previously, IFSTA published two separate manuals with student and instructor support materials: *Pumping Apparatus Driver Operator Handbook* and *Aerial Apparatus Driver Operator Handbook*. Fire departments with both types of apparatus needed two manuals; two curriculum and driver/operator trainees needed two exam preps to study for tests. The release of the 3rd edition of these manuals streamlines the IFSTA training resources.

The *Pumping Apparatus Driver Operator Handbook 3rd Edition* covers pumping apparatus only; the second book in the pair, *Pumping and Aerial Apparatus Driver Operator Handbook 3rd Edition*, contains the same 15 chapters as the pumping apparatus textbook plus an additional 5 chapters relevant to aerial apparatus. Personnel on departments that operate both types of apparatus now only need one manual and one curriculum for training. Students only need one exam prep to prepare for testing. If a fire department does not use aerial apparatus, they use the *Pumping Apparatus Driver Operator Handbook 3rd Edition* and omit the aerial sections of the curriculum and exam prep, which include all 20 chapters. Chapters 2 and 3 are especially beneficial for all driver operators.
