**Needy Media** Stephen Monteiro, 2025-09-16 What makes our portable networked personal media devices smartphones tablets smartwatches so irresistible Reacting to our touch voice or gaze seizing and keeping our attention with sounds vibrations and screen prompts these objects construct an animated intimacy that builds trust and emotional dependence Needy Media explores how features such as face recognition awareness sensors and touchscreens have developed and intersected tying them to key concepts of psychology language and the body Surveying products and practices across a half century Stephen Monteiro argues that the appeal is as much about how media devices behave as it is about the information they convey Monteiro traces a symbiotic overreliance a neediness between users and devices fostered by personalized aspects of digital materiality The physical and emotional bonds that emerge he argues not only cast our devices as loyal companions adaptable to our needs and idiosyncrasies they also facilitate the corporate harvesting of massive amounts of personal data in the name of making technology more friendly intuitive and

individualized Raising important questions about privacy and power Needy Media seeks answers in the complex and sensitive relationship between interface and body a coupling that makes the networked object both an essential psychological presence and a lingering concern for our sense of self     The Bootstrapper's Guide to the Mobile Web Deltina

Selfie Biometrics Ajita Rattani, Reza

Derakhshani, Arun Ross, 2019-09-21 This book highlights the field of selfie biometrics providing a clear overview and presenting recent advances and challenges It also discusses numerous selfie authentication techniques on mobile devices Biometric authentication using mobile devices is becoming a convenient and important means of verifying identity for secured access and services such as telebanking and electronic transactions In this context face and ocular biometrics in the visible spectrum has gained increased attention from the research community However device mobility and operation in uncontrolled environments mean that facial and ocular images captured with mobile devices exhibit substantial degradation as a result of adverse lighting conditions specular reflections and motion and defocus blur In addition low spatial resolution and the small sensor of front facing mobile cameras further degrade the sample quality reducing the recognition accuracy of face and ocular recognition technology when integrated into smartphones Presenting the state of the art in mobile biometric research and technology and offering an overview of the potential problems in real time integration of biometrics in mobile devices this book is a valuable resource for final year undergraduate students postgraduate students engineers researchers and academics in various fields of computer engineering Hanging Out, Messing Around, and Geeking Out, Tenth Anniversary Edition

Mizuko Ito, Sonja Baumer, Matteo Bittanti, Danah Boyd, Rachel Cody, 2019-10-01 The tenth anniversary edition of a foundational text in digital media and learning examining new media practices that range from podcasting to online romantic breakups Hanging Out Messing Around and Geeking Out first published in 2009 has become a foundational text in the field of digital media and learning Reporting on an ambitious three year ethnographic investigation into how young people live and learn with new media in varied settings at home in after school programs and in online spaces it presents a flexible and useful framework for understanding the ways that young people engage with and through online platforms hanging out messing around and geeking out otherwise known as HOMAGO Integrating twenty three case studies which include Harry Potter podcasting video game playing music sharing and online romantic breakups in a unique collaborative authorship style Hanging Out Messing Around and Geeking Out combines in depth descriptions of specific group dynamics with conceptual analysis Since its original publication digital learning labs in libraries and museums around the country have been designed around the HOMAGO mode and educators have created HOMAGO guidebooks and toolkits This tenth anniversary edition features a new introduction by Mizuko Ito and Heather Horst that discusses how digital youth culture evolved in the intervening decade and looks at how HOMAGO has been put into practice This book was written as a collaborative effort by members of the Digital Youth Project a three year research effort funded by the John D and Catherine T MacArthur Foundation and conducted at the University of California Berkeley and the University of Southern California

Hanging Out, Messing Around, and Geeking Out Mizuko Ito, Sonja Baumer, Matteo Bittanti, Danah Boyd, Rachel Cody, 2009-10-30 An examination of young people s everyday new media practices including video game playing text messaging digital media production and social media use Conventional wisdom about young people s use of digital

technology often equates generational identity with technology identity today's teens seem constantly plugged in to video games social networking sites and text messaging Yet there is little actual research that investigates the intricate dynamics of youths social and recreational use of digital media Hanging Out Messing Around and Geeking Out fills this gap reporting on an ambitious three year ethnographic investigation into how young people are living and learning with new media in varied settings at home in after school programs and in online spaces Integrating twenty three case studies which include Harry Potter podcasting video game playing music sharing and online romantic breakups in a unique collaborative authorship style Hanging Out Messing Around and Geeking Out is distinctive for its combination of in depth description of specific group dynamics with conceptual analysis
