**A Skeptic's Guide to Belief** Ken Crispin, 2019-04-04 What would happen if you faced your doubts set aside your preconceptions and decided to follow the path of truth wherever it might lead Most people whether believers or atheists doggedly defend what they have always believed Many see this as an expression of faith Yet there is something almost inexpressibly sad about the plight of people living out their lives in reliance upon beliefs they dare not question Perhaps that is why many of us come to a point at which we feel compelled to pursue the truth no matter what the implications But even if we found the courage to embark upon such a journey could we really find a path through the scientific philosophical experiential and theological thickets that surround the great questions of life And if we did would we know the truth and be set free Would we be forced to face a long feared despair Or would we find ourselves still staring impotently at an enigmatic universe This is a book unlike any other It addresses these questions with unflinching honesty drawing evidence from a diversity of scientific fields and subjecting the competing arguments to rigorous skeptical analysis

bestseller *Imagine Heaven* **Who Are We?** William Sowder, Dr. Juanita Christopher, 2017-12-27 In this book among other sources we have compiled key thoughts and material that were dictated to Alice Bailey starting in the 1920s and continuing through the 1960s from the Tibetan master Djwhal Khul As you see in the references she wrote eighteen books which were published by Lucis Publishing Company New York Djwhal Khul shared this material from another dimension giving us a new perspective We highly recommend these books because Djwhal Khul is in a higher vibrational dimension working and aiding us in an enlightened evolution What we have added to this book is some of our thoughts about the energies to which Khul refers We know very little about these energies and this material presents a challenge to us in our evolutionary sojourn Each of us must pursue our understanding and knowledge about these energies This is our goal and our reason for writing this book Good travels to you [The NDE Conspiracy](#) Shaun Tabatt, 2025-05-06 What Really Awaits Us Beyond the Veil You've read the amazing accounts and heard the incredible interviews of people who've died experienced the afterlife and come back to tell about it but can you actually believe them As one of the most trusted Christian voices in the NDE space bestselling author and podcaster Shaun Tabatt has spent years researching and investigating testimonies of near death experiences throughout history His interviews with survivors have been heard by millions around the world and what he's found will fundamentally change the way you think about afterlife accounts In this astonishing eye opening book Shaun reveals the truths the lies and the ugly sides of NDE accounts empowering you to discern what's trustworthy disprove what's dangerous and confidently know what awaits you on the other side Full of never before published testimonies of heaven and hell penetrating research notable stories and documentation throughout history and real world wisdom this vital accessible book turns a critical eye on afterlife accounts and the NDE industry helping you stay grounded in biblical truth and a biblical worldview Understand the 9 point NDE framework and standard terminology Separate the truth from the lies in NDE and afterlife descriptions Expose perilous pitfalls such as psychics mediums aliens spirits and memories of past lives Share the true hope of the afterlife with others Don't fall for false witnesses or half truths What lies beyond the veil is more amazing than you can imagine it's time to discover the truth for yourself [The Facts On Life After Death](#) John Ankerberg, John Weldon, 2011-04-22 Clearly shows how the cults and parapsychology have modified the death experience stripped it of meaning It answers concerns such as What is the cultic view of death soul sleep annihilation or conditional immortality Is modern death research unbiased Are all near death episodes the positive experiences researchers would have us believe Why do near death experiences frequently represent initiation into the world of the occult Is there any evidence for reincarnation This book exposes the errors in the cultic occult view of death helps readers separate the facts from fiction [The Soul's Upward Yearning](#) Robert Spitzer, 2015-08-10 Since the early twentieth century scientific materialism has so undermined our belief in the human capacity for transcendence that many people find it difficult to believe in God and the human soul The materialist perspective has not only cast its spell on the natural sciences psychology philosophy and literature it has also

enthralled popular culture which offers very little to encourage the soul's upward yearning. There are many signs of the widespread loss of confidence in our ability to soar upward and these have been noted by thinkers as diverse as Carl Jung, psychiatrist Mircea Eliade, historian of religion Gabriel Marcel, philosopher and authors C. S. Lewis and J. R. R. Tolkien. Their observations were validated by a 2004 study published in the American Journal of Psychiatry that linked the absence of religion with a marked increase in suicide, meaninglessness, substance abuse, separation from family members and other psychological problems. Thus the loss of transcendence is negatively affecting an entire society. It is stealing from countless individuals their sense of happiness, dignity, ideals, virtues and destiny. Ironically, the evidence for transcendence is greater today than in any other period in history. The problem is this evidence has not been compiled and made widely available, a challenge Father Spitzer aspires to meet with this book. Father Spitzer's work provides a bright light in the midst of the darkness by presenting traditional and contemporary evidence for God and a transphysical soul from several major sources. It shows that we are transcendent beings with souls capable of surviving bodily death; that we are self-reflective beings aware of and able to strive toward perfect truth, love, goodness and beauty; that we have the dignity of being created in the very image of God. If we underestimate these truths, we undervalue one another, underlive our lives and underachieve our destiny.

Near-Death Experience in Ancient Civilizations Gregory Shushan, 2025-02-04. Reveals the powerful influence of near death experiences (NDEs) on the formation of religious beliefs, mystical literature and ritual practices. Focuses on the afterlife beliefs of five ancient world regions: Old and Middle Kingdom Egypt, Sumer and Old Babylonian Mesopotamia, Vedic India, pre-Buddhist China and Maya and Aztec Mesoamerica. Shows how the similarities among afterlife beliefs and their correspondences with NDEs reveal that they both stem from universal truths. Taking readers on a thought provoking journey into our ancestors' beliefs about death, dying and the afterlife, Gregory Shushan, Ph.D., reveals the powerful influence of near death experiences (NDEs) on religious beliefs and ritual practices throughout human history. Focusing on five ancient world regions in Egypt, Mesopotamia, India, China and Mesoamerica, Shushan expertly explores each civilization's afterlife beliefs. He explains how each of these civilizations developed independently of one another, yet there is a series of similarities among

afterlife beliefs too consistent and specific to be mere coincidence This leads to the profound implication that afterlife beliefs are not entirely invented by cultures they also stem from universal truths derived from NDEs Drawing on anthropology psychology and philosophy the author explores how each civilization interpreted NDEs and how afterlife beliefs develop over time He also explores the metaphysical implications of his discoveries including what an actual afterlife would look like Revealing that NDEs have occurred throughout human history Shushan shows how they continue to influence our understanding of what lies beyond death to this day
