had a secondary role in creating men and women who are fit for purpose a notion that has meant a lot of different things throughout history Chaline surveys the gym s many incarnations and the ways the individual the nation state the media and the corporate world have intersected in its steamy confines sometimes with unintended consequences He shows that the gym is far more than a factory for superficiality and self obsession it is one of the principle battlefields of humanity s social sexual and cultural wars Exploring the gym s history from a multitude of perspectives Chaline concludes by looking toward its future as it struggles to redefine itself in a world in thrall to quick fixes such as plastic surgery and pharmaceuticals meant to attain the gym s ultimate promises physical fitness and beauty     **Runner's World** ,1999     **Lear's** ,1993     **Heart**
