## Life In The English Country Cottage:

Life in the English Country Cottage Adrian Tinniswood,1997-09 The English cottage is an icon for our times Whether a harmonious blend of timber frame and thatch or golden Cotswold stone it symbolizes country life at its most seductive a chance to return to the rural Eden that was lost to most of us with the Industrial Revolution The picture of cottage life is an attractive and enduring one that has fascinated writers and artists for the last two hundred years But this book shows that life in the English country cottage was far from being the idyll that many of us suppose From the medieval village right through to the twentieth century the author traces the history of the cottage exploring how cottages came to be built and how their appearance was affected by social forces and changing trends But the focus is firmly on people how cottage dwellers spent their time how they were treated by their social superiors what they ate and where they slept and how they decorated and furnished their homes

*The House of Fiction as the House of Life* Francesca Saggini,Anna Enrichetta Soccio,2020-05-15 In recent years the interest in the house has grown irresistibly to the point that in many ways houses seem to be situated at the very core of the creative artistic and cultural domains of contemporaneity Their presence sprawls across the media from magazines to TV programmes and across the globe possibly because as repositories of the human houses have a long standing and profound connection not only with men and women but at a deeper level with the ways of representing man's world across its declinations of gender class and race Houses the perennial ubiquitous and silent background to our daily lives could many a tale unfold the tales of their inhabitants and in their relationships with others of

the times they lived in of their configurations of the world as well as the visions and nightmares of the artists who created them This collection offers a comprehensive and transdisciplinary look at the paper houses of English Literature in the eighteenth and nineteenth century Among the configurations addressed the authors investigate the domestic spatialization of authority gendered houses narratives of household construction and deconstruction exotic mansions fin de siècle habitats haunted edifices and houses in detective and Gothic fiction Country Life Illustrated ,1901 Country Life in America ,1916 **Household Medicine in Seventeenth-Century England** Anne Stobart,2016-09-08 How did 17th century families in England perceive their health care needs What household resources were available for medical self help To what extent did households make up remedies based on medicinal recipes Drawing on previously unpublished household papers ranging from recipes to accounts and letters this original account shows how health and illness were managed on a day to day basis in a variety of 17th century households It reveals the extent of self help used by families explores their favourite remedies and analyses differences in approaches to medical matters Anne Stobart illuminates cultures of health care amongst women and men showing how kitchen physick related to the business of medicine which became increasingly commercial and professional in the 18th century *The Comforts of Home in Western Europe, 1700-1900* Jon Stobart,2020-02-20 Comfort both physical and affective is a key aspect in our conceptualization of the home as a place of emotional attachment yet its study remains under developed in the context of the European house In this volume Jon Stobart has assembled an international cast of contributors to discuss the ways in which architectural and spatial innovations coupled with the emotional assemblage of objects to create comfortable homes in early modern Europe The book features a two section structure focusing on the historiography of architectural and spatial innovations and material culture in the early modern home It also includes 10 case studies which draw on specific examples from water closets in Georgian Dublin to wallpapers in 19th century Cambridge to illustrate how people made use of and responded to the technological improvements and the emotional assemblage of objects which made the home comfortable In addition it explores the role of memory and memorialisation in the domestic space and the extent to which home comforts could be carried about by travellers or reproduced in places far removed from the home *The Comforts of Home in Western Europe 1700 1900* offers a fresh contribution to the study of comfort in the early modern home and will be vital reading for academics and students interested in early modern history material culture and the history of interior architecture **Comfort in the Eighteenth-Century Country House** Jon Stobart,2021-09-21 Country houses were grand statements of power and status but they were also places where people lived This book traces the changes in layout the new technologies and the innovations in furniture that made them more convenient and comfortable It argues that these material changes were just one aspect of comfort in the country house feeling comfortable was just as important as being comfortable Achieving this involved the comfort and solace to be found in daily routines religious faith and above all relationships with family and friends Such emotional comforts and

the attachment to things and places that embodied and memorialized them made country houses into homes      A History of
