My Life Lessons

Life lessons are endless because they touch on various aspects. Once someone develops self-awareness, he or she understands the lessons and experiences improvements and progress in life. The lessons can be from personal or other people's experiences. Since some lessons come with disappointments and pain, it is difficult to bounce back and pursue one's goals. In the beginning, it is always exciting to create a list of your goals because you have a clear vision of where you want to be after a certain period. However, one is bound to be disillusioned when he or she encounters challenges in all directions. In her text *Finishing School*, Maya Angelou shows how one overcome challenges in the society such as racism by being determined and diligent (Angelou 5). I have learned that life situations are never permanent and with this notion in mind, one can be tenacious and role model to others through the small cumulative victories. This year, three significant things I have learned so far in my life are to work on plans strategically without exposing them to anyone until I execute them, to exercise perseverance through life challenges, and to appreciate my loved ones often because life is short and full of surprises.

With our creativity and intelligence, when we discover great ideas, we become so excited such that we want to share them with everyone before we begin executing them. However, I learned that not everyone would be happy about your progress in life and some people might try to discourage you directly or indirectly or even hinder your progress deliberately. For example, I was in a team, and after we all formed a bond, I was open about my weaknesses and personal life. I became much attached, and I was always ready to share my realizations, my deep thoughts, and my experiences. After a while, I found out that my group members had discussed my issues with other people and they all shared negative thoughts about me. They were reluctant to contribute to the ideas that I mentioned, but they used the ideas for their gains. I was devastated because I had sacrificed a lot of opportunities to make time for the team activities yet everyone else had selfish motives. By the time I realized that I had exhausted my energy trying to please other people to fit in and to make the team effective, it was too late. Nevertheless, I had to retreat and analyze the situation and talk to my closest friends and relatives to appreciate my achievements and to revitalize my mind and my passion regarding my goals and results. From the situation, I learned that I should not trust so easily but be cautious to assess the people around me concerning both my business and personal life. It is prudent to develop your goals and plans secretly so that you are well-placed to implement them effectively and remarkably. Angelou (4) also affirms this notion through Margaret's plan to break Mrs. Cullinan's favorite dish intentionally when the visitors are present so that Margaret can be fired and be free from the insults and oppression.

Another essential lesson that I have understood this year is persistence. When we encounter tough situations, we are tempted to quit. Sometimes it is even impossible to see the light at the end of the tunnel, and the encouraging words from your friends or relatives become
