*Exploring Positive Psychology* Erik M. Gregory, Pamela B. Rutledge, 2016-10-03 Looking for an introduction to positive psychology that offers real life examples This overview of the science of happiness supplies case

studies from some of the world's most successful organizations and describes ways to experience the personal impact of this exciting scientific field. Rather than focusing on treating what is wrong with a person, positive psychology seeks to understand and foster the things that drive happiness, creativity, and emotional fulfillment. This is a relatively new area of psychological study, and this reference book presents the research and practice of positive psychology in an informative and accessible format. Readers are given a history of the field, its current applications, and the future implications of this psychological discipline. Case studies from companies such as The Body Shop, Volvo, Zappos, and Google highlight the impact of positive psychology when it's applied in a modern business setting. These case studies, along with biographies of leaders in the field, highlight each chapter and connect the dots between the empirical theory of positive psychology and its practice. Readers also receive tools to apply the practices to their own lives.

*Social Problems* Anna Leon-Guerrero, 2018-07-10 Empower your students to become part of the solution. The new Sixth Edition of Anna Leon Guerrero's *Social Problems: Community Policy and Social Action* goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions. With a clear and upbeat tone, this thought-provoking text challenges readers to see the social and structural forces that determine our social problems, to consider various policies and programs that attempt to address these problems, and to recognize and learn how they can be part of the solution to social problems in their own community. New to This Edition: Many of the social policy discussions, including immigration, LGBTQ rights, the Affordable Care Act, and Internet neutrality, have been updated to reflect the most recent government actions and debates. More recent data and new data sources have been incorporated throughout both in the main narrative and in the *Exploring Social Problems* features. New Voices in the Community: subjects on gender, work, and the economy, and war and terrorism appear in several chapters. New In Focus: topics include Black Lives Matter, assault weapons, and college drug problems. The chapter on gender has been substantially updated with new or expanded coverage of binary, cisgender, transgender, identification, gender nonconformity, discrimination, sexual misconduct on college campuses, and the rights of trans and intersex individuals. Other new or expanded coverage elsewhere includes economic anxiety, robotization in the workplace, white nationalists, feminist theories about race, fake news, net neutrality, community policing, gentrification, and segregation in U.S. cities, and the immigration and environmental policies of the Trump administration.

**The Suicidal Person** Konrad Michel, 2023-09-12 Konrad Michel, a leading psychiatrist and acclaimed expert, draws on decades of experience to offer necessary new ways of understanding and preventing suicide. After one of his first patients died by suicide, Michel devoted himself to researching self-harm. Writing vividly and personally, he recounts more than forty years of working with and learning from suicidal patients. Michel shows that suicide is not just a consequence of mental illness but an action related to a person's life story. Drawing on hundreds of interviews with suicidal patients, he argues that suicide and suicide attempts occur when someone experiences extreme emotional pain that severely impairs the ability to

think and act rationally Based on this understanding Michel and his colleagues developed a person centered approach to treatment that overcomes the limitations of the traditional medical model Through a brief therapy patients find a personally meaningful narrative understanding of their suicidal thoughts and impulses People at risk can learn to recognize their vulnerabilities in order to manage potentially life threatening situations and keep themselves safe Michel emphasizes the importance of communication medical professionals need to connect with patients as individuals to identify specific warning signs Both compassionate and rigorous this book provides vital insight into suicide prevention and shows how changing attitudes will help save lives It includes practical advice for people at risk with special emphasis on young people as well as for relatives and health professionals [Knowledge, Power and Young Sexualities](#) Tamara Shefer,Jeff Hearn,2022-07-27

This book troubles the ways young people have been constructed as trouble through critical readings of the effects and impacts politically and ideologically globally and locally of scholarship and practice directed at South African young people s sexualities over the last three decades of addressing HIV GBV and other sexual and gender justice challenges Located primarily in South Africa the book speaks to global concerns about the politics of knowledge and transnational flows of information and practice with respect to gender and sexuality and is framed by global imperatives and analyses located in transnational postcolonial and intersectional feminist frameworks The key argument developed here and explored in relation to several different forms of research and practice is that efforts to challenge HIV GBV and unequal sexual and gender practices among young people particularly as evident in heterosexual relationships have tended to reflect and reproduce renewed orthodoxies about sexuality gender family and young people while bolstering global and local racist classist othering of certain communities and nation states and reiterating the innocence and authority of those already privileged and centred The book contributes to critical reflexive work on global practices of knowledge and its complex enmeshment with power in the terrain of sexual and gender justice work aimed at young people [The Wiley Handbook of Psychology, Technology, and Society](#) Larry D. **Leadership for Increasingly Diverse Schools** George Theoharis, Martin Scanlan, 2025-09-23. The third edition of the best-selling *Leadership for Increasingly Diverse Schools* helps both practicing and aspiring school leaders deepen their knowledge, skills, and dispositions to create schools that best serve all students. This book helps readers sharpen their awareness of how students' multiple dimensions of diversity intersect, as well as develop strategies for leading schools where students of all socioeconomic statuses, races, religions, gender, and sexual identities, languages, and disabilities flourish. *Leadership for Increasingly Diverse Schools* provides school leaders with the theory, research, and practical guidance to foster teaching and learning environments that promote educational equity and excellence for all students. Special features: Each chapter focuses on a specific dimension of diversity and discusses intersectionality across other areas of difference, including disability, language, race, socioeconomic status, sexual, and gender identity, religion, and social ecosystems. Chapters synthesize literature, share practical strategies, and tools, include school-level and district-level cases illustrating inclusive leadership, and provide extended learning opportunities. This new edition is updated throughout, including greater focus on strategies for readers' professional development, expanded coverage of educational infrastructure, and discussion of current political context and discourse, including anti-DEI movements. Online Support Material features additional resources, documents, and links to videos and podcasts described in the chapters, accessible at <https://www.routledge.com/9781032901046>.

*Education in Vietnam* Martin Hayden, Thi Le Tran, 2024-08-02. Offering insights into the current and projected future state of the education system in Vietnam, this edited volume is an authoritative sourcebook for scholars, policy analysts, academic staff, and students. Vietnam is well on its way to joining the dress circle of high-achieving education nations in Asia. International surveys of the academic aptitude and ability of the nation's youth consistently place it well above relevant regional and global averages. This accomplishment is remarkable for a country with a gross domestic product per capita of only US\$2,785 in 2020. The dynamics of Vietnam's national education system are comprehensively documented in the book. Each of the country's education sectors is critically appraised, as well as the culture of education in Vietnam. Specific issues concerning funding and equity, quality, and accreditation, the teaching of curriculum areas, the internationalisation of the system, and the provision of educational opportunities for young people with disabilities are carefully analysed against a background of relevant global trends. With contributions from well-established and highly respected local experts with high aspirations for the future development of the national education system in Vietnam, this book will be a must-read for academics and students of Southeast Asian studies and comparative education.

**Difficult Subjects** Badia Ahad-Legardy, Oi Yan A. Poon, 2023-07-03. *Difficult Subjects: Insights and Strategies for Teaching about Race, Sexuality, and Gender* is a collection of essays from scholars across disciplines.

institutions and ranks that offers diverse and multi faceted approaches to teaching about subjects that prove both challenging and often uncomfortable for both the professor and the student It encourages college educators to engage in forms of practice that do not pretend that teachers and students are unaffected by world events and incidents that highlight social inequalities Readers will find the collected essays useful for identifying new approaches to taking on the difficult subjects of race gender and sexuality The book will also serve as inspiration for academics who believe that their area of study does not allow for such pedagogical inquiries to also teach in ways that address difficult subjects Contributors to this volume span a range of disciplines from criminal justice to gender studies to organic chemistry and demonstrate the productive possibilities that can emerge in college classrooms when faculty consider identity as constitutive of rather than divorced from their academic disciplines Discussions of race gender and sexuality are always hot button issues in the college classroom whether they emerge in response to a national event or tragedy or constitute the content of the class over a semester long term Even seasoned professors who specialize in these areas find it difficult to talk about identity politics in a room full of students And many professors for whom issues of racial and sexual identity is not a primary concern find it even more challenging to raise these issues with students Offering reflections and practical guidance the book accounts for a range of challenges facing college educators and encourages faculty to teach with courage and conviction especially when it feels as though the world around us is crashing down upon our students and ourselves

The Life Course Stephen J. Hunt,2017-09-16

Dramatic social transformation in Western society over recent decades has had a profound impact on the way the life course is studied. While people continue to experience the implications of class, gender, ethnicity, and of course age, they are more than ever able to take personal control of their own lives. The Life Course considers how in a diverse and uncertain world the previously predictable stages of life are no longer fixed but increasingly open to change. Focusing on continuities and change, this book looks not only at the different phases of life but also at the transformation of a number of closely related social institutions such as the family, education, and the workplace. Recognising that the established cradle to grave view is now outdated, the trajectory from infancy and youth to later and end of life is followed not as a stable object of study but as a starting point for critical analysis. This second edition offers an essential overview of the sociology of the life course, incorporating both contemporary and conventional perspectives. It calls upon current theorising around the life course as well as on up to date empirical research data. This thought provoking text is relevant to researchers and students of life course studies and sociology as well as to those in nursing, social work, and related caring professions.

*How Can Education Better Support the Mental Health & Wellbeing of Young People? Contributions From Developmental Psychopathology & Educational Effectiveness Research* James Elliot Hall, Jana Marinka Kreppner, 2019-11-27

How can education better support the mental health and wellbeing of young people? Research in the 1970s that addressed this question has since proven seminal to the development of two co-existing fields of research that continue to offer mutually informative insights: Developmental Psychopathology (DP) and Educational Effectiveness Research (EER). DP and EER share the common agenda of understanding factors that relate to individuals' learning and development. DP focuses on the individual learning and developing in context. EER investigates the educational systems, structures, and processes that shape how individuals learn and develop. Given the complementarity of DP and EER, it is somewhat surprising that they have rarely joined forces and synthesised knowledge to develop a fuller understanding of the roles educational contexts play in the mental health and wellbeing of students. This Research Topic aims to stimulate such collaboration.

**Strengthening Anti-Racist Educational Leaders** Anjalé D. Welton, Sarah Diem, 2021-10-21

This edited volume expands on the existent research on anti-racist educational leadership by identifying what type of capacity building is needed for school administrators to facilitate anti-racist change in their schools. Racial inequities in education persist in part because the solutions that districts and schools choose to employ largely ignore why and how institutional and structural racism is the root cause of inequities in education. Yet racial inequities in schooling can be redressed if districts and schools have leaders who are deeply committed to combatting racism in their daily practice and structures of schooling. This book underscores why we need more educational leaders who adopt an anti-racist stance in how they lead and are prepared to work toward racial justice and equity in a society so entrenched in racism. Through diverse perspectives and voices including scholars in the field of educational leadership, sociologists of education, school and district administrators, and grassroots community members and activist groups, this book addresses issues related to anti-racist

educational leadership at various levels
