Finding the social factors that has played a significant role in shaping my life experience, with gender and ethnicity are the biggest influence in my life. Social factors play a role in shaping people's life from the day they are born. When a child is born, they have no knowledge of the world, very fast we become customary to the expectations and is the normal of society. We become socialized. Socialization is defined is the process by which individuals internalize the vales, beliefs and the norms of given society and to function as a member of that society. There is a lot of different parts of socialization, or people or groups that did effect my life, these are families, peers, media, school and religion (being the catholic religion.) Us kids were and still aren't very close even though one of my brothers only lives 10 minutes away we don't see each other very offtern at all. My parents always brought us up to treat others the way we want to be treated. Respect was and still a very big thing. The town we grow up in only had a population of 300 so everyone new everyone which meant that when we did something wrong my parents new what we had done before we even got home. One one had my parent were very strict in they would check our home work when we had finished it and if it wasn't up to their standed or neat enough they would get us to do it again. But on the other hand weekends and schoolholidays we would take off in the morning into the Kosciusko national park and come home when the sun went down.
