## **Life Orientation Caps Document:**

**Sexuality, Society & Pedagogy** Dennis A. Francis, 2013-01-01 Sexuality Society and Pedagogy problematises some of the prevailing assumptions that frame this area of study In doing so it aims to make visible the challenges of teaching sexuality education in South African schools while demonstrating its potential for reshaping our conceptions of the social and cultural representations thereof Although the book is largely situated in experiences and perspectives within the South African context it is hoped that the questions raised reflections analyses and arguments will contribute to thinking about sexuality education in diverse contexts in particular more developing contexts

**The Strategic Repositioning of Arts, Culture and Heritage in the 21st Century** George Mugovhani, Owen Seda, 2018-06-11 The post millennium world has been experiencing several recognisable historical milestones with regard to arts culture and heritage One of these has been the resuscitation and revival of creative elements of the arts culture and heritage of previously marginalised or disadvantaged communities around the world Until recently there had been scant regard and skewed allocation of resources for these but lately attempts have been made to promote and sustain them in order to enable the socio economic aspirations of a multicultural society The contributions brought together here are the product of papers that were presented during a conference on Strategic Repositioning of Arts Culture and Heritage in the 21st Century They cover a broad spectrum of subjects such as indigeneity music song and identity politics national reconciliation education product development and national development

**Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems** Tshifhumulo, Rendani, Makhanikhe, Tshimangadzo Justice, 2021-10-08 Indigenous knowledge systems IKS are a combination of knowledge systems encompassing technology social economic and philosophical learning or educational legal and governance systems The lack of documentation of these systems presents a problem as the knowledge is fading away over time In response it is essential that policies and strategies are undertaken to ensure that these systems are protected and sustained for generations to come The Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems is a comprehensive reference source that works to preserve indigenous knowledge systems through research Focusing on key concepts such as tools of indigenous knowledge management and African indigenous symbols the book preserves and promotes indigenous knowledge through research and fills the void staff and students within the field of indigenous knowledge systems face with the current lack of research and resources This book is ideal for university students lecturers researchers academicians policymakers historians sociologists and anyone interested in the field of indigenous knowledge systems

**Globalisation, Human Rights Education and Reforms** Joseph Zajda, Sev Ozdowski, 2016-09-23 This book the seventeenth instalment in the 24 volume series Globalisation Comparative Education and Policy Research explores the interrelationship between ideology the state and human rights education reforms setting it in a global context The book examines major human rights education reforms and policy issues in a global culture It focuses on the ambivalent

and problematic relationship between the state globalisation and human rights education discourses Using a number of diverse paradigms ranging from critical theory to historical comparative research the authors examine the reasons for and the outcomes of human rights education reforms and policy The authors discuss discourses surrounding the major dimensions affecting the human rights education namely national identity democracy and ideology These dimensions are among the most critical and significant dimensions defining and contextualising the processes surrounding the nation building identity politics and human rights education globally With this as its focus the chapters represent hand picked scholarly research on major discourses in the field of human rights education reforms The book draws upon recent studies in the areas of globalisation equality and the role of the state in human rights education reforms Furthermore the perception of globalisation as dynamic and multi faceted processes clearly necessitates a multiple perspective approach in the study of human rights education This book provides that perspective commendably It also critiques current human rights education practices and policy reforms It illustrates the way shifts in the relationship between the state and human rights education policy In the book the authors who come from diverse backgrounds and regions attempt insightfully to provide a worldview of current developments in research concerning human rights education and citizenship education globally The book contributes in a very scholarly way to a more holistic understanding of the nexus between nation state human rights education both locally and globally

**Assessment in Geographical Education: An International Perspective** Theresa Bourke, Reece Mills, Rod Lane, 2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is

that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills FCS Life Orientation L2 ,2008 **African Studies:**

**Breakthroughs in Research and Practice** Management Association, Information Resources,2020-04-03 Global interest in African studies has been rapidly growing as researchers realize the importance of understanding the impact African communities can have on the economy development education and more As the use acceptance and popularity of African knowledge increases it is crucial to explore how this community based knowledge provides deeper insights understanding and influence on such things as decision making and problem solving African Studies Breakthroughs in Research and Practice examines the politics culture language history socio economic development methodologies and contemporary experiences of African peoples from around the world Highlighting a range of topics such as indigenous knowledge developing countries and public administration this publication is an ideal reference source for sociologists policymakers anthropologists government officials economists instructors researchers academicians and graduate level students in a variety of fields Citizenship, Education and Violence Waghid Yusef,2013-12-30 The focus of this book is to offer a humane rocesponse to dealing with violence An interpretive analysis is presented in order to think differently about violence in schools and about how a citizenship education of becoming can deal with the unpredictable consequences of violence in its own potentiality It seems to the authors that given the confident onslaught of violence there is nothing left to do but to offer insight into the nature of violence itself and by so doing to search for unexplored ways of humane response and being The authors are not pretending to hold a magic wand that will sanctify schools into the safe zones that they ought to be and as which they should serve in any society This would be both presumptuous and misleading What one is looking and hoping for however is a renewed engagement a slight tilting of the perspective so that something other than how we have always responded to violence perhaps will emerge The authors are confident that such a deconstructive approach to violence in schools through the lens of a reconsidered view of citizenship education can assist them and others to wrestle with its potential for destruction that can be changed into options for co belonging of a non violent if not peaceful kind **Literacy and Democracy in South African Primary Schools** Getahun Yacob Abraham,Mary Alice Barksdale,2017-12-20 Literacy and Democracy in South African Primary Schools presents findings based on two research projects conducted in South African primary schools during the same time frame Working from the South African Foundation Phase curriculum that was introduced in 2009 the first project focused on the introduction of leadership qualities and the election of classroom representatives in 3rd grade classes in four elementary schools The other introduced process based writing to teachers and researched the process and products of children s stories The book describes research experiences from the field provides a brief overview of the history of the South African education system and looks ahead to the future transformation of global educational systems **Schooling for Sustainable Development in Africa** Heila Lotz-Sisitka,Overson Shumba,Justin

Lupele,Di Wilmot,2016-11-11 This book considers the scope and dynamics of Education for Sustainable Development ESD and learning in schools in Africa It explores the conditions and processes that support such learning and examines how ESD in schooling can improve the quality and relevance of education The quality of education has been defined internationally as a key concern for educational institutions around the world including schools in Africa The models of quality are often limited to performance based approaches and or inclusive approaches The contributions in this book show that there is more to a discussion on educational quality in Africa than performance success and or inclusion The chapters explain how ESD brings a new relevance to education in Africa and at the same time sounds the beginning of a new concept of quality education The volume presents a collection of experiences in creating and supporting quality learning processes through a variety of ESD practices

**Educational Assessment in a Time of Reform** Coert Loock,Vanessa Scherman,2019-11-20 Educational Assessment in a Time of Reform provides background information on large scale examination systems more generally and the South African examination specifically It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours At the heart of the book is the debate on whether the current standard of education in Africa is good enough If not then how can it be improved The aim of this book is to provide a point of departure for discussions on standard setting quality assurance equating of examinations and assessment approaches From this point of departure recommendations for practices in general and the exit level Grade 12 examination results in particular can be made This book is ideal reading for principals teachers academics and researchers in the fields of educational assessment measurement and evaluation
