Creating Engaging Discussions Jennifer H. Herman, Linda B. Nilson, 2023-07-03 If you have ever been apprehensive about initiating classroom discussion fearing silences the domination of a couple of speakers superficial contributions or off topic remarks this book provides strategies for creating a positive learning experience Jennifer H Herman and Linda B Nilson demonstrate how to create the conditions to facilitate deep and meaningful learning as well as to assess the effectiveness of discussions They identify analyze and solve common problems in both classroom and online discussions and in both small and large classes They take a direct practice oriented approach that in acknowledging common challenges provides principles guidance on design examples of activities and techniques and eight detailed case studies These cases demonstrate successful approaches that faculty across disciplines and from a variety of institutions have adopted in their face to face blended or online courses at the undergraduate or graduate level The case authors begin by describing the original pedagogical challenge they faced and explain how they addressed it and assessed the results of their innovation They also offer practical recommendations to readers who may want to try their strategies Intended for faculty this book will be equally valuable for educational developers who can use this resource in their programs and private consultations At the graduate level this book can serve as a text or workshop resource in college teaching courses and teaching assistant development programs The final chapter provides a set of resources and activities including discussion questions on the case studies writing prompts and jigsaw formats that are equally appropriate for individual study or for use in workshop environments You ll never again have to suffer such a profound silence that as described by a contributor to the book she could hear the crickets chirping outside

Creating Life-Long Learners Todd Stanley, 2015-07-30 Wanted for the global workforce thinkers and those who can teach them Where K 12 instruction once centered on content and memorization today s educators want most of all to teach their students to think critically and perceptively What better way than with project based learning PBL Author Todd Stanley provides a teacher friendly step by step approach to implementing PBL focusing on the 21st century three R s readiness responsibility and relevance Educators will be prepared to put this practical methodology to work right away as they learn how to Use project and classroom management skills to create a positive productive learning environment Develop curriculum around ten different project types Link projects with today s standards Teach students how to effectively collaborate and bring out the best in each other Readers will find an abundance of ideas and clear guidance along with new strategies for instilling the skills students need for tomorrow s workforce If you are looking for a way to produce higher level thinkers you really need to read this book It is a recipe for successful life long learners Tamara Daugherty Teacher Lakeville Elementary School Student lead project based learning fuses today s

classroom with the demands of the fast paced future Students need to be able to interact and problem solve not just with each other but also within the community and with technology This book is a guide for helping educators make that jump with their instruction Debra K Las Teacher Rochest Public Schools **Author Index to Psychological Index, 1894 to 1935** Columbia University.
