Curtis, 2021-01-08 Are you a professional photographer or a new user that wants to get the most out of your Nikon D3500 camera? If yes, then this guide will give you the best Nikon D3500 user's experience. Read on to find out more. The Nikon D3500 is a 24 MP entry-level DSLR that has an APS-C CMOS sensor that is much lighter, cheaper, and has much longer battery duration than its predecessor, the D3400. The camera is made perfectly for individuals that are just getting into photography, as it features a Guide Mode that teaches the handler how to shoot photography in different situations. The key specifications of this version include ISO range of 100-2500, EXPEED 4 image processor, 24 MP APS-C CMOS sensor, Bluetooth for transferring images to other devices, Battery rated at 1550 shots per charge, CIPA 921 k-dot fixed LCD screen, Full HD 1080/60p video capacity, ability to shoot continuously at five frames per second, and lastly, an 11-point autofocus system that works through the optical viewfinder. Although the D3400 that the D3500 replaced is still a good camera, the D3500 makes things much better, and the new APS-C sensor it features is still one of the best you can find. Similarly, the camera is made perfectly for both individuals that are just getting into photography as well as for professionals.
