**The New Domestic Automakers in the United States and Canada** A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the

United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide **All**

Pearson,2025-02-21 The author has captured in words and lavish illustrations many of his own that have never been seen before the stories of over one hundred men and women whose personal motor racing journeys paved the way to establish and explode this sport They did so both locally and overseas showing that Aussies were as good as the world s best when it came to not only skill behind the wheel but also in the design and manufacture of the fastest cars and in organising events of the highest level and regard Most of these names are extremely well known by all Aussie petrol heads household names admired around any backyard barbecue Just the mention of their names brings nods of respect But you will additionally read accounts of some very significant lives and racing achievements you previously knew nothing about and some are quite simply amazing There s our first woman to race commercially overseas Just how she got there is incredible Then you share the exploits of an illegal inter capital record holder who went to New Zealand to break the land speed record the farmers whose sons and grandsons became racing dynasties and the home grown mechanics and car builders whose designs obliterated all competition Strap yourself in and hang on It s gonna be a bloody wild ride **India Today International** ,2003 *Autocar & Motor* ,1992 **Autocar** ,2001 *Postcolonial Automobility* Lindsey B. Green-Simms,2017-10-24 For more than a century cars have symbolized autonomous unfettered mobility and an increasingly global experience And yet they are often used differently outside the centers of global capitalism This pioneering book considers how through the lens of the

automobile we can assess the pleasures dangers and limits of global modernity in West Africa Through new and provocative readings of famous plays novels and films as well as recent popular videos Postcolonial Automobility reveals the surprising ways in which automobility in the region is at once an everyday practice an ethos a fantasy of autonomy and an affective activity intimately tied to modern social life Lindsey B Green Simms begins with the history of motorization in West Africa from the colonial era to the decolonizing decades after World War II and addresses the tragedy of car accidents through a close reading of Wole Soyinka s 1965 postindependence play *The Road Shifting* to screen media she discusses Ousmane Sembene s *Xala* and Jean Pierre Bekolo s *Quartier Mozart* and reviews popular low budget Nollywood films Finally Green Simms considers how feminist texts rewrite and work in dialogue with the male centered films and novels where the car stands in for patriarchal power and capitalist achievement Providing a unique perspective on technology in Africa one refusing to be confined to narratives of either underdevelopment or inevitable progress and covering a broad range of interdisciplinary material *Postcolonial Automobility* will appeal not only to scholars and students of African literature and cinema but also to those in postcolonial and globalization studies
