

MLA Style Guide

7th Edition (2009)

Documenting Your Sources

This guide illustrates the MLA style (7th edition - 2009) documentation format for sources frequently used by students. You must adhere to the format and punctuation as shown. Please note there are other accepted styles that vary from discipline to discipline. Be sure to ask your teacher if there is a preferred style for your assignment.

Citations and bibliographies/references are used for two reasons. One is to inform your teacher (or any other reader) about the resources you used to write your essay/report/project. The other is to acknowledge those sources and to differentiate between your thoughts and/or opinions and the facts that you found in your research. If you do not cite your sources you are committing a form of academic dishonesty known as plagiarism. Plagiarism is the theft of someone else's words or ideas and can result in a mark of zero, whether done intentionally or not.

You should use citations:

- ✓ If you are stating facts or statistics, for example:

The population of Hamilton is 530,000 (Smith 35).

The rainforests are disappearing more quickly every year (Brown 148).

- ✓ If you are providing someone else's opinion, for example:

"Chimpanzees are smarter than gorillas" (Davis 258).

The NDP is more environmentally conscientious than the Conservative Party of Canada (Mitchell 329).

You do not need to use citations:

- ✓ If you are giving your own opinion or stating common knowledge, for example:

The earth is round.

H₂O is water.

I think that humanity will realize the importance of the environment and change their ways.
